

Budget Group Hikes Building Fund Levy

BREAKDOWN ISN'T GIVEN

... Increase Would Be .675 Mills

By BETTY PERSON
Star Staff Writer

The Budget Committee Thursday advanced the institutional building fund bill to the floor of the Legislature after amending it to provide that the special levy be increased to 1.775 mills, a hike of .675 of a mill over the present rate.

Sen. Richard Marvel of Hastings, committee chairman, refused to disclose how the special levy is proposed to be divided among participating agencies.

He would say only that the levy was to be divided in "specific dollar amounts" and that they were "tied to specific projects."

Report Later
The amounts and projects will be reported in the overall appropriations measure when it is sent to the floor, Marvel said.

The bill upon which the committee acted was LB439, introduced by Sen. Don McGinley of Ogallala who proposed increasing the levy from its present 1.1 mills to 1.6 mills, extending the levy two years through 1968, and revising the present percentage formula for distribution.

McGinley's proposal called for an increase in the percentage allocated to the Department of Institutions. He termed the bill a "vehicle" through which the Budget Committee could take a thorough look at the building needs of the various state agencies.

The committee Thursday removed McGinley's name from LB439 and made it a Budget Committee bill.

Raise \$12 Million
Based on current property valuations in the state, the recommended 1.775 mills will raise just under \$12 million for the biennium, an increase of about \$4.5 million over the amount produced by the present 1.1 mills.

Since LB439, in its amended form, calls for a levy of 1.775 mills—but the money it raises is to be divided by specific dollar amounts among the participating agencies—it is not clear what will be done if the state's valuation is raised or lowered during each of the next two fiscal years.

On other building matters, the Legislature Wednesday

PROWLERS A PLAGUE

Police early Friday morning were plagued by numerous prowler calls as Lincolnites saw faces looking through windows at them, heard footsteps on their roofs, and saw people ransacking their cars.

Desk Sgt. Robert Lattimer said he received 8 such calls in a period of 30 minutes.

All patrol cars on the streets were assigned to handle these calls throughout the city.

Academic
The President's forum was an academic one, at San Diego State College.

Kennedy delivered the commencement address after getting something of a history-making honorary degree.

California's 17 state colleges combined in giving him

the first honorary doctor of law degree any of them ever has awarded.

Instant
"To be an instant graduate of this college is greatly appreciated," the President said with a chuckle.

After his address, whose passages on racial issues were toned down considerably from the advance version, Kennedy climbed into a helicopter and flew to the San Diego Marine Corps recruit depot for a short course in how a recruit is converted in a few weeks into a tough, fit, fighting man.

This was a prelude to a trip to sea on an aircraft carrier to watch what the Navy can do in amphibious and anti-submarine warfare and in repelling or launching aerial attacks.

Political
The day had political overtones, too. By the President's

side all the way was Gov. Edmund G. (Pat) Brown.

The governor says he is going to run next year's election campaign in a state Brown won in 1962 and Kennedy lost in 1960. Both ran against the same man—former vice president Richard M. Nixon.

San Diego was the pivotal point in California's swing to Nixon in 1960. Kennedy lost the state by only 35,000 but dropped San Diego County by 52,000 votes.

White Killed In Racial Flareup In N. Carolina

Lexington, N.C. (AP) — This small textile city in Piedmont section of North Carolina erupted into a small volcano of racial violence Thursday night, leaving one man dead and a newspaper photographer seriously wounded.

Dead was Fred Link, 21, of Rt. 4, Lexington, a white man.

Wounded and reported in serious condition at a High Point hospital was Art Richardson, 25-year-old photographer for the High Point Enterprise and father of 4 children.

The two men were shot as a cordon of police kept a crowd of 2,000 whites and a hundred or more Negroes separated on a street that borders the Negro residential section.

Mob Gathered
Police said the tension started building up Wednesday night when a small group of Negroes attempted sit-ins at several downtown places, including a cafe and a bowling alley. A mob of white youths gathered then, but no violence was reported.

Thursday night, officers said, a crowd of whites began gathering near the Negro section about 7 p.m., and two hours later had grown to more than 2,000.

Both sides began throwing bottles, some filled with gasoline; rocks and sticks. Windows in a Negro church near

Job Discrimination Sore Point In D. C.

Washington (AP) — A civil rights advisory group said Thursday job discrimination plays a major part "in the high incidence of crime, unemployment, social dislocation, school dropouts and political apathy among minority groups" in the nation's capital.

The District of Columbia Advisory Committee to the Civil Rights Commission called for enactment of a fair employment practices ordinance as a step toward heading off mass protests similar to recent violent outbreaks in Philadelphia.

The report by the citizens group called also for federal

and local action to eliminate discrimination in all government-supported vocational education, training and apprenticeship programs.

President Kennedy already has announced such a federal drive, both in apprenticeship training and employment of workers on federal construction projects.

After meeting with local civil rights leaders Tuesday Secretary of Labor W. Willard Wirtz pledged urgent federal action in Washington to force an end to discriminatory practices by both unions and contractors.

Wirtz described the situation here as "explosive" and said efforts had been going on for

30 to 60 days to head off a blow-up.

The advisory committee report said employment discrimination in Washington is "wide-spread and substantial."

Negroes make up 54% of Washington's population, the report said, but 7 out of 10 unemployed are Negroes, and the average Negro family earns only 56 cents for every dollar earned by the average white family.

Vocational training programs are good in the local schools, the report said, but Negroes who seek business training after high school run into a segregation roadblock even though jobs are available in the government on a non-discriminatory basis.

Commenting on questions about whether Negroes are qualified for higher skilled jobs, the report said:

"It would take a miracle to suddenly produce a qualified labor force after decades of discrimination."

"Perhaps no single factor is of greater importance in ending discrimination in the trades — particularly the building trades, where it has been most persistent — than the establishment of full equal opportunity in apprenticeship."

The report said there are only 66 Negro apprentices in the training programs operated by the craft unions in Washington, with no Negroes among 128 registered apprentices in neighboring Montgomery County, Md.

14th, D Collision Hospitalizes Two

The Lincoln women were listed in good condition at St. Elizabeth Hospital Thursday night after the cars they were driving collided at 14th and D, then went on and struck separate parked cars.

Officer William Fitt identified the injured drivers as Gladys Gibbs, 54, of 1926 M, who was southbound on 14th, and Peggy I. Young, 29, of 746 B, who was westbound on D.

Omaha Station Added, ETV Passes First Test

By DON WALTON
Star Staff Writer

The Legislature Thursday added an Omaha educational television station to the proposed statewide ETV network, then advanced LB667 from its first floor test on a 3-2-1 vote.

The amendment, proposed by Sen. George Gerdes of Alliance, requires that the network consist of at least two originating stations, including one at Omaha.

Cost of the additional out-let was pegged at some \$500,000.

The Omaha station would be in addition to KUON-TV in Lincoln, whose transmitter will be moved to near Mead, and new stations at Lexington, North Platte, Alliance, Albion and Bassett.

The addition raises estimated capital construction costs to near \$3 million over a 3-year period.

ETV currently contains no special financing features, and would be funded from the property tax-supported general fund in an appropriation within the budget bill.

The Federal Communications Commission has allocated Channel 16 (UHF) to Omaha.

Other amendments adopted by voice vote altered membership on the proposed state ETV commission by knocking out all lay members.

Commission members would include the state education commissioner, the chancellor of the University of Nebraska, the coordinator of the state teachers colleges and a representative of private institutions, all proposed in the original bill.

New Members
New commissioners include a member of the Nebraska Council for Educational Television and representatives of Omaha, Lincoln, Class I and Class III school boards.

Only Sen. Sam Klaver of Omaha voted against advancement of the bill.

A companion measure, LB666, has already cleared general file on a 21-15 count. It would establish the network.

Both bills will require 22 votes to be enacted.

Addition of an Omaha station had been urged by the Omaha Board of Education.

Gov. Frank Morrison plugged for enactment of the ETV proposals in a special appearance before the Unicameral Thursday morning.

Sponsors of the two bills are Sens. Richard Marvel of Hastings, Fern Hubbard Orme of Lincoln and Gerdes.

The Soviets have rejected two other American proposals for reducing the risk of accidental war—an exchange of military missions and advance notification of major military movements.

Tsarapkin told the conference both these projects were American espionage devices.

The technical negotiations on the hot line opened on May 6 with Steele and Tsarapkin heading the two delegations. The experts were led by Brig. Gen. George P. Sampson, deputy director of the U.S. defense communications system, and Ivan Klokov, Soviet deputy minister of communications.

Redhead's Love Life Rocks Great Britain

London (P) —The turbulent love life of a beautiful redhead rocked Prime Minister Harold Macmillan and his government Thursday. There were demands for yet another investigation of Britain's security services.

The storm centered around War Minister John Profumo who resigned Wednesday admitting he lied when he said he had not had improper relations with model Christine Keeler, 22. Miss Keeler's roommate said Thursday that often when Profumo went out the apartment door, a Soviet naval attaché walked in.

Lord Lambton, a Conservative member of the House of Commons, said he had twice warned authorities of Profumo's association with Miss Keeler. Writing in the Evening Standard, Lambton said, Profumo's sensational resignation as war secretary will not end the story.

Beginning

"It is merely the beginning of another unfortunate chapter which may end heaven knows where," he added.

Lambton's title is only a courtesy given him as the son of the Earl of Durham. He is not a peer and consequently is eligible to sit in the commons from which peers are barred.

Labor Party leader Harold Wilson served notice that his party will press "for the full facts."

Criticism

It seemed certain that Macmillan will face considerable criticism from within his own Conservative Party.

"It must be accepted," wrote the political correspondent of the Conservative Evening News, "that Mr. Macmil-

lan's personal position is to some extent imperiled."

Profumo resigned in a letter confessing that he lied to the House of Commons to cover his illicit association with Miss Keeler. He previously had insisted that he knew her but nothing improper had taken place.

Warning

The Russian on Christine's visiting list was Capt. Eugene Ivanov, an assistant naval attaché who played the social circuit so cheerfully that Laborite politicians warned security about him.

Marilyn Rice Davies, an 18-year-old party girl who shared a West End apartment with Christine, said in the Daily Sketch that she had been questioned by Scotland Yard men about what went on there. She added:

"And the farcical thing about it all was that — on more than one occasion — as Jack (Profumo) left Christine at the flat, Eugene Ivanov, the handsome young Russian naval attaché, walked in."

He has since been called home to Moscow.

Miss Keeler herself, meanwhile, was carried hysterical from the Old Bailey trial of a 31-year-old Jamaican Negro who says he was her lover.

Accused

The Jamaican, Aloysius Lincoln Gordon, is accused of beating up Miss Keeler outside her apartment April 17. He pleaded innocent.

Miss Keeler, sitting at the back of the court, became hysterical when Gordon told the judge she had been a call girl since she was 17. He also said he helped her get marijuana.

Ribicoff Says Ag Department's Denial Of Secret Pesticide List Is Fantastic

Washington (P) —Sen. Abraham Ribicoff, D-Conn., denounced Thursday as "fantastic" and "Agriculture Department denial that its officials tried to keep secret the list of pesticides being sold without endorsement."

"Without naming any of the officials he accused of 'bureaucratic blight,'" Ribicoff told the Senate there have been instances when the officials tried to block public information on products which might be dangerous to humans, animals or crops.

"Officials of the department will not help matters if they try to pretend that mistakes were never made," the senator said.

Absolved

But Ribicoff absolved Secretary of Agriculture Orville L. Freeman of any blame and pointed out that his former cabinet colleague had directed that all such "protect registrations" be made public. The former secretary of welfare added:

"It is impossible for a secretary to know everything that is going on in a vast department. But that is no excuse for departmental officials to hide what is going on or try to kid a secretary, the press, the public or a United States senator."

Ribicoff is chairman of a government operations subcommittee which has been holding hearings on pesticides.

No Comment

The Agriculture Department said it would not comment on Ribicoff's speech beyond what it said on Tuesday after Ribicoff first made his secrecy charges. A spokesman said then the list of pesticides had been and is available to any newsman who wants it.

Ribicoff said Thursday the list of 7 products given to newsmen is not complete "because 5 others which were denied department approval might have been offered for public sale." He added that since he received the list "all 5 either have been corrected or are definitely off the market and their protest registration canceled."

Girls In FHA Told School Is Important

Education is important to girls as they face their dual roles as homemakers and wage earners. Cecil Stanley said Thursday.

The assistant state education commissioner addressed 309 members of Future Homemakers of America gathered at the Nebraska Center for Continuing Education from 60 schools in the eastern half of the state for their annual Leadership Workshop.

The attending girls are officers in their local chapters. Purpose of the workshop which began Wednesday is to learn more of FHA's aspects.

It will close Friday with presentations of chapter awards, state homemaker degrees and introduction of state officer candidates.

State officers for 1963 are: Gracey Starr of David City, president; Jane Bennett of Stromboli, first vice president; Judy Breuninger of Norfolk, second vice president; Sharon Schick of Curtis, secretary; Jeanne Fox of Lehigh, treasurer; Jan Armstrong of Lincoln, historian; Jean Jensen of Plattsmouth, parliamentarian; Jack Evans of Broken Bow, sergeant at arms; Sheryl Wheeler of Pawnee City, recreation chairman; Marilyn Mann of Seward, public relations chairman; and Ann Johnson of Lincoln, delegates chairman.

92-YEAR-OLD DRIVER GROUNDED

Mrs. Lillian Tenney, 92, has an appointment with traffic officials in Miami, Fla., who want to talk about her lack of a drivers license which was revoked in 1959. She said the fuss raised about her driving status and numerous unpaid traffic citations is a lot of folderol. The former school teacher said, "Why, I am an expert, unusually fine driver. People simply keep running into me."

Venezuelans Press Search

FOR TERRORISTS WHO HIT U.S. MISSION

Caracas, Venezuela (UPI) — Embarrassed authorities pressed an all-out search Thursday for armed pro-Castro terrorists who raided and burned a U.S. military mission office Wednesday night and forced 6 American and 4 Venezuelan army men to strip to their shorts.

The raiders did not harm the men but burned a U.S. flag and destroyed a portrait of Washington. They took 4 tommyguns carried by the Venezuelan guards and a pistol they found in the mission safe. The fire they set when they fled caused \$20,000 damage.

Police ordered more than one-third of the city's detectives into the search for the attackers. The foreign ministry drafted a government note of apology to the Americans.

The Americans in the building at the time of the attack were Col. James K. Chenault, of Corpus Christi, Tex., and his 15-year-old son; Maj. T. C. Blevins, of Kannapolis, N.C.; Sgt. Kenneth Smith, of North Vernon, Ind.; Sgt. Archivaldo Saenz, of Rio Grande, Tex., and Maj. Bernard Gardner, Sgt. Rudolph Felix and Sgt. Jose Augustini, whose home towns were not disclosed.

Deference

All except Chenault were forced to strip to their underwear. Chenault said the raiders called him "colonel" several times, although he wore no insignia, and he presumed he was not required to strip "out of deference to my rank."

Chenault explained that "there was no opportunity at any moment to resist." He said the raiders delivered a lecture on Venezuelan nationalism and "American imperialism" to their captives.

Although no violence was employed against the Americans, Chenault said one of the raiders snarled "next time we won't be kidding" as the men fled.

Commemorative

The raid was staged to commemorate the Puerto Caballo naval revolt of a year ago when Communists and rightists joined forces in an unsuccessful bid to topple President Romulo Betancourt.

Downtown Lions Elect Rolfsmeyer

William E. Rolfsmeyer has been elected president of the Downtown Lincoln Lions Club for 1963-64.

Others elected were Louis L. Roper, vice president, and Eames Irvin, secretary. New members of the board of directors are Jack Campbell, Charles E. Haupt and Dr. Henry Cech.

Plot To Topple Shah Smashed

Tehran, Iran (P) —Premier Assadullah Alam said Thursday the government has smashed a new plot aimed at toppling Shah Mohammed Reza Pahlavi by sabotaging Tehran's vital utilities and educational institutions.

While martial law preserved an uneasy calm, the premier told listeners in a nationwide radio broadcast that plot leaders had been arrested and would be tried.

Two newspapers reported gunfire near the summer palace outside the city where the Shah and his family took shelter.

Sporadic

There were sporadic incidents of violence, but nothing like the rioting Wednesday which, the coroner said, left 79 dead including 14 in the Moslem holy city of Qum to the south.

Rioters were protesting the Shah's program, endorsed by an overwhelming majority of Iranians, for distributing land to poor peasants.

Troops sealed off Tehran's only public cemetery to prevent new demonstrations during the hurried burials of the riot victims.

Closed Off

They also closed off small areas around government buildings after troops had to fire in the air to repel a mob attacking the radio station for the third day in a row. Some of the attackers were dressed in white shrouds as a sign of defiance.

Such mobs, recruited in the bazaars, are available to anyone who can pay them and for almost any cause.

Knots of them made ineffectual attacks against 3 telephone exchanges Thursday.

Jeep Stoned

U.S. officials said a jeep belonging to the American military advisory mission was stoned as it drove past Tehran University but no one was injured. Two jeeps were stoned the day before and rioters damaged the Iranian-American student center.

Property losses throughout the city were estimated in the millions of dollars. A vast cleanup program was under way.

The Shah, whose program of taking land away from wealthy landlords including the Moslem church touched

off the rioting, was reported safe at his Saadabad summer palace. The newspapers Kayhan and Ettelaat reported some gunfire in a neighboring village. Officials said he and Queen Farah with their two children drove there, 6 miles north of the city, at the height of the violence Wednesday.

To Destroy

The premier said the plot was "to destroy the bulwarks of education and civilization such as the city water supply, telephone service, city electricity, schools and cinemas."

He called it a "dangerous plot against the interest and progress of Iran."

The government charged that leaders of the Shiite Moslem sect touched off the riots because they feared losing the revenues from their shrine lands through the Shah's land distribution program. The mullahs (religious leaders) also opposed the Shah's giving equal rights to women, which they believe violates the teachings of the prophet Mohammed. The Shah is also a Shiite-Iran's official religion.

The government warned its female employees to stay away from work lest their unveiled faces touch off new violence.

HOW'S THIS FOR OWNER SATISFACTION?

91.3 PERCENT OF '63 CHRYSLER OWNERS INTERVIEWED BY A NATIONAL MAGAZINE† SAID THEY WOULD BUY CHRYSLER AGAIN. IT'S BEEN EIGHT YEARS SINCE ANY CAR WAS SO WELL LIKED BY THE PEOPLE WHO BOUGHT IT.

Why? Riding comfort. Handling ease. Power and performance. Clean, crisp styling. These things were named after a total of 1,297,466 owner driven miles, as the outstanding reasons for this overwhelming approval of the '63 Chrysler.

The 5-year or 50,000-mile warranty*—America's longest new-car warranty—was the deciding factor

for many owners when they were choosing between a '63 Chrysler and other medium-priced cars.

If you haven't driven a Chrysler recently, why not take an hour today or tomorrow, and give a '63 Chrysler a thorough going-over. You'll find your Chrysler dealer's deal will be just as favorable as your rating of Chrysler.

†Name on request

*Your authorized Chrysler Dealer's Warranty against defects in material and workmanship on 1963 cars has been expanded to include parts replacement or repair, without charge for required parts or labor, for 5 years or 50,000 miles, whichever comes first, on the engine block, head and internal parts; transmission case and internal parts (excluding manual clutch); torque converter, drive shaft, universal joints (excluding dust covers), rear axle and differential, and rear wheel bearings, provided the vehicle has been serviced at reasonable intervals according to the Chrysler Certified Car Care schedules.

Tornado Destroying Auto Shop Leaves 1926 Model Car Intact

By GENE BUDIG
Outstate Nebraska Bureau
Scribner—The old 1926 Pontiac held its ground.
Elsewhere, things were different.
Amid fallen stone and scattered debris, Dean Barker Thursday lamented the fate of his automotive repair shop at the junction of Nebraska 91 and U.S. 275.
"That tornado (Wednesday night) put an end to my business for a while," he said. "It will cost me more than \$4,500 to rebuild the place. It's a complete loss."
Behind the sullen spokesman was the roof of his 30 by 30-foot shop, which had been hurled more than 70 yards.
"I wasn't here when the tornado hit, but my daughter, Susie, was in the house and saw it," he noted.
Saw Funnel Cloud
The still-stunned 14-year-old said, "I saw a funnel cloud off there (to the southwest), but I didn't know what it was."
"The next thing I knew, the doors swung open and the windows cracked. By the time I could get to the side bedroom window, the shop didn't have a roof."
The Barker house missed the tornado's path by less than 15 yards.
"We were pretty lucky that no one got hurt," Barker noted.
He was visiting nearby Dodge at the time, where preparations for the town's diamond jubilee are under way. That's where the old Pontiac comes in.
"I was putting new rings in the old baby so it could drive in the jubilee parade," he said. "It won't make it now. I can't find half my tools."
The aged auto remained atop its blocks throughout the violent 10-minute ordeal, which also snapped Scribner telephone lines.
A hailstorm also struck in several areas in north, east and central Nebraska, but it was most vicious in the Grand Island area, the Associated Press reported.
In northeastern Nebraska, Uehling which had nearly 4 1/2 inches of rain Tuesday night got another inch Wednesday night. Scribner had nearly an inch on top of 3 1/2 inches the night before.
Harold Alexander, meteorologist at Norfolk, said weathermen had been concerned about the possibility of flooding in those areas but a check Thursday indicated stream levels had risen only slightly.
Because of lack of rain earlier, the ground was dry and it sponged up the heavy fall, Alexander said.
The heaviest report of rain Wednesday night was 4.3 inches southwest of Hordville, a town east of Grand Island.
Heavy Crop Damage
In Grand Island proper the hail damage was not as severe as that experienced in a storm two weeks ago, but southwest of Grand Island there was heavy crop damage and window breakage.
At the Alfred Buettner farm 10 miles southwest of Grand Island 55 panes of glass were shattered by hail, and at the nearby Charles Wiese farm 60 panes of glass were broken.
Agricultural observers said it would take some time to assess the damage to corn, which is only a few inches above ground after being set back by a late freeze. Small grain was badly damaged.

IT'S OK... Barker inspects the old Pontiac.

A CRUSHING BLOW... downed the automotive repair shop.

Waugh: Cites Common Market

Samuel Waugh, international bank adviser, said Thursday that barring nuclear war, the most important undertaking of the 20th Century could turn out to be the European Common Market.
Waugh, a 1915 graduate of the University of Nebraska, returned to Lincoln Thursday to speak at NU's second annual Alumni College.
He said, "It is clear, however, that negotiations will take months and possibly years and therefore it is difficult to estimate today the effect on any specific U.S. industry."
The former chairman and president of the Export-Import Bank said the real economic effect of the market on the United States will depend on who the U.S. negotiators turn out to be.
He speculated that the negotiators would be obtained largely from the U.S. State, Commerce and Agriculture Departments.
Earlier in the morning, a panel discussion was held on "Partners in Progress," in which NU Regent Val Peterson warned that the state must begin soon to support research and development for industry.
Also among the speakers were Dean E. F. Frolik of the College of Agriculture, Bennett Martin of Lincoln and Walter Behlen of Columbus.
At the evening banquet, Nebraska poet laureate John G. Neihardt spoke to the assembly on "Nebraska's Heritage," his lyrical work.
The Friday program includes an address by Oscar L. Clarke Jr., vice president of the National Bank of Commerce in Lincoln, and Dr. Kenneth Rose of the University Student Health Service.

THE WEATHER

Summary Of Conditions
A broad, complex low pressure structure extends over the plains from West Texas northward through Nebraska and into southeastern Saskatchewan and southern Manitoba. There is one low pressure area in Saskatchewan and another in eastern Colorado.
The weak, cold front that has been carried for days has about lost its identity. Temperature contrast for all intents and purposes is gone, and the front is about parallel to the upper wind flow and should wash out as front, keeping quite warm southwest wind flow in our two-state area.
Already the air mass has undergone considerable drying aloft. Plenty of unstable air exists, but moisture is scarcer aloft, and the front has about lost its triggering mechanism.
Variable cloudiness and continued warm should be the rule through Friday night. There may be a few isolated thunderstorms, but they will occur mostly in western Nebraska in the late afternoon and evening.

Homer Boy Drowns In Farm Pond

Homer (UPI) — Dennis Knapp, 11, drowned shortly before noon Thursday in a farm pond near here.
The boy, the son of Mr. and Mrs. Orville Knapp of Homer, was wading across the 75-foot wide pond, when he apparently fell into a deep hole. One of his companions, Gary Harris, 16, caught Dennis' hand, but couldn't hold it.
The body was recovered by Harold Nelsen of Homer, one of 5 volunteer firemen called to the scene, about an hour later.
Dakota County Sheriff Harold Niehr said the drowning occurred in a pond on the Leland Harris farm about 3 miles south of here. He said Dennis, who was with 3 other boys on an outing to escape the heat, could not swim.
The Harris and Knapp families were friends. The Knapps live in town.

Tractor Kills 10-Year-Old

Pawnee City (AP) — A 10-year-old youth operating a farm tractor became Nebraska's 121st highway victim Thursday.
A year ago Nebraska had recorded 119 traffic deaths.
Pawnee County Sheriff Charles Hall said the victim was Wayne Beebe, 10, son of Mr. and Mrs. Lawrence Beebe of Elk Creek. The sheriff said the boy was driving a farm tractor which was pulling a rotary hoe on a county road 8 1/2 miles northwest of Pawnee City when tractor went out of control and overturned pinning him underneath.
The accident was discovered by Ed Kalina of Elk Creek.

June Meet Set
Beatrice—Beatrice State Home Association for Retarded children will hold its June meeting on Sunday, June 9, at 10:30 a.m. at the auditorium at the Beatrice State Home.

Pension Bill Cost To City 'Not Major'

City Finance Director James Mallon said Thursday the amended Lincoln fire and police pension bill for retirement at age 60 at 50% pay would effect "no major increase on the city payment."
LB639, advanced to the Legislature's floor by the Labor and Public Works Committee, would boost the employee contribution to 6% from the present 4.7%.
Some 282 city employees would be affected by the change.
Mallon said the estimate of no major increase was a preliminary one, based on a previous actuarial study made for the city.
However, Mallon said he didn't know what affect a second provision for retirement at 55 with 40% pay after 25 years would have on the city's cost.
Mallon said an actuarial study indicated the city's cost for fire and police pensions will increase \$50,000 to a total of some \$300,000 beginning the 1963-64 fiscal year.
This increase will occur under the present pension plan which provides for retirement at \$135 per month for all grades.
The City Council is on record as opposed to LB639.

Imperial Burglary Defendants Go To District Court

Two men, charged with burglarizing the Imperial Roofing and Sheet Metal Co. at 540 L on Memorial Day, have been bound over to District Court.
Lancaster County Judge Ralph Slocum ruled after a preliminary hearing that there was sufficient evidence to bind George Richard Bontkowski, 30, of Lakewood, Ohio, and Wardell Fair, 32, of Memphis, Tenn., over to the higher court.
The pair was discovered in the building by two police officers patrolling the area.
What's new at the Air Base. Timely illustrated feature and news stories in the "Sunday Journal and Star" keep you fully informed.

Scientists: SPF Hog Output Approach Is Key To Success

Texas and Illinois veterinary scientists predicted that the Specific-Pathogen-Free (SPF) approach to hog production developed by Nebraska scientists is the key to successful swine production in the future.
Dr. Richard Moore of Texas A. & M. College, College Station, Tex., and Dr. George Woods of the University of Illinois, Urbana, Ill., made this assertion at the concluding session of the swine repopulation conference. The event held at the University of Nebraska Center for Continuing Education attracted some 75 veterinarians from all parts of the nation.
"The hog producer cannot compete in the years ahead unless he goes into the SPF hog production program," said Dr. Moore. "In Texas we can't get enough SPF hogs fast enough to meet demand at the present time."
Dr. Woods added that "use of the SPF swine program, together with intensive research on conquering transmissible gastro-enteritis, (TGE) offer the biggest challenges to the swine industry today. If a cholera eradication, of course, should proceed as rapidly as possible."

World Of Good Faith

By WILLIAM O. DOBLER

In the wake of the death of Pope John XXIII have come comments from every corner of the world and from all social, economic and political groups. And through these comments can be seen a great deal of encouragement for the world. The things that many admired in the late Pope were his simple honesty and his complete dedication to the goodness of mankind. That this could have struck such a universal chord is not a matter to be taken lightly.

Even behind the Iron Curtain, the humanity of the Pope had to be reckoned with and what he said was given a substantial place in the affairs of men. Might it not be proper to conclude from all this that the inhabitants of this earth are still possessed of the spark of human justice, kindness and equality, even though they walk a nuclear path of self-annihilation? Some have shown concern over who will be the successor to Pope John. Will he be a liberal or will the papacy go back to a more uncompromising position? Will the ecumenical council be continued or will it be dropped for some reason?

Will the door of the church be kept open for communism or will the Reds have to beat the door down to get in? All of these are questions that will be answered in time and they will play an important role in the future course of events but it is not as though Pope John left us nothing of a permanent nature. It is not as though no conclusions were reached in the short span of his tenure.

This smiling Pope gave the world a new insight into itself, a new awareness of its greatness and capacity, a new spirit and a new sense of direction. He did this by convincing civilization that human equality and justice are the hallmarks of an advanced society.

And what better legacy could he have given the world? He struck out at the real fundamentals that are the cause of so much of the turmoil in the world today, including the turmoil within our own nation over such things as integration. What he sought to impress upon people was the virtue of simple justice and his success is vividly seen in the widespread comment that has been made on his life. He caused men to realize and think about the fact that they are on this earth for some purpose other than their own gratification and glory. He caused them to realize and think about the fact that the real reward in life comes from the contribution that is made to the world, not from what is taken from the world. It had almost become trite

to follow the admonition that it is better to give than to receive but Pope John gave the idea new life and spirit. In his advancement of the cause of the equality of mankind, he contributed immeasurably to the future of the world. If every nation of the world and the people in it would follow this doctrine of equality, there would be no nuclear arms race, no widespread hunger and no cold war. It is the sort of doctrine that is practiced within a family but seldom extended beyond that point by the individual. It is in no way whatsoever the point of view of any one church or religion, but rather, a universal truth that holds the only promise of peace for the future. Only when men can come to live in trust of one another will they find an end to the conflicts that now exist between them.

Some have hinted that the Pope seemed a little soft on communism when he opened up discussions with the leaders of the communist movement. Nothing could have been further from the truth than this. He did know that it is vital that the communists, as well as all the rest of the world, come to understand the meaning of trust.

Most certainly, we believe with good reason that the communists have a much longer way to go in this matter of trust than does the Western world. But trust involves understanding the other fellow as well as living yourself by a certain code of conduct. If we never communicate with the communists, how are they ever going to begin to think that they can trust the West? We think we can be trusted but the Reds are a long way from convinced of this. And our own house needs to be put in better order, too, before such conviction on their part is even possible with open communication. We should remember that this is not any sudden development that we are talking about. What we are talking about is an evolutionary process that can be expected to extend over many, many years. What the Pope had tried to give the world was a frame of mind in which this ultimate goal might possibly be achieved.

That his words were so widely acclaimed is evidence of the fact that they were understood and taken to heart. He could not have hit such a responsive note throughout the world if it were not lingering somewhere deep inside the mind of all human beings. We have within us the capacity for human injustice, understanding and equality if we can only summon the courage to let this capacity find expression in our words and deeds.

Preparing The Way

states of this Union. But it is the federal government that gives us unity and strength. We speak with misgivings about the power of the federal government and we longingly dream of more states rights but there is a point in this direction that never was and was never intended to be. We are not an alliance or confederation of 50; we are a single nation of states.

The question of states rights was settled long ago by our forefathers and those who go in extremes toward states rights are not in any sense trying to return us to what the framers of our Constitution intended us to be. Rather, they are attempting to make the nation into something entirely different than it was in its origin. If federal authority is bad, then the nation is a little cockeyed and we doubt that anyone really believes this. Are we really ready to trade this system we have in for something new?

We Are One

U.S. District Judge Seybourn H. Lynne, in his injunctive order against Alabama Gov. George Wallace, made an obvious but often forgotten point. He ordered that Wallace could not interfere with the federally ordered integration of the University of Alabama. He made crystal clear the authority of the federal government over a state.

"Thoughtful people," he said, "if they can free themselves from tensions produced by established principles with which they violently disagree, must concede that the governor of a sovereign state has no authority to obstruct or prevent the execution of the lawful orders of a court of the United States."

This brings home the truth that we are one is a nation under a republican form of government. Too often today there is a tendency to regard the federal government as something sinister and apart from the

The New Generation

This week Colin Kelley III was graduated from the United States Military Academy and is now wearing the gold bars of a second lieutenant.

This was pleasing to a country which recalled that his father just 26 years ago stood with another West Point graduation class. After a tragically short military career he met a hero's death. His B17 was shot down December 10, 1941. This was three days after the Japanese attack on Pearl Harbor. Kelley was engaged in combat with a Japanese warship. When his plane was rendered helpless he ordered his crew to bail out and then went down with his plane. His son and namesake was 19 months old at the time.

Young Kelley did not wear his father's lieutenant bars. He explained that he wished to make it on his own. We are sure he will.

One Way Of Doing It

The petroleum agreement recently worked out between Indonesia and foreign oil companies is a classic example of dollar diplomacy. But that does not necessarily make it bad.

President Sukarno, flirty with the Reds, expansionist-minded in respect to neighbor-

The country remembers the bravery of the senior Kelley's widow and the dedication of his son. It was impressed by such character that could maintain ideals above the most grievous experience.

Time has made its circuit. Young Kelley stands at the outset of his military career where his father formerly stood. The country is not in a hot war. But it is in a crucial cold war, one that calls for equal dedication and sacrifice.

The country is reminded it is now one generation removed from World War II, yet it seems like such a short time. Now in the years to come the great decisions will be made and the high trials endured by new and young people. As in the instance of Mr. Kelley and the many more dedicated American young men, the country is passing into good hands.

ing areas, and poor at building a domestic economy that will stand up, set forth to expropriate Indonesia's oil industry. It is largely operated by subsidiaries of Standard Oil and of Royal Dutch Shell, combining a business that does some \$250 million a year—a choice prize for a quasi-dictator whose country needs a shot in the arm.

Probably the oil industry could not have come to a realistic settlement with Sukarno had not a U.S. emissary indicated the expropriation would result in cancellation of \$100 million foreign aid to Indonesia. The U.S. was not so much concerned with the welfare of the oil industry as with the necessity of preventing Indonesia oil from finding a home in Red China. The latter is currently depending upon Russia for oil which is a discipline favoring the policy of coexistence.

At any rate Sukarno saw the light. The oil will continue flowing westward with Indonesia getting a 60 per cent share of the sales instead of 50 as formerly. It will also acquire the refining facilities on a pay out basis extending 15 years.

This may seem like a cold handed deal. But it does maintain a favorable position for the West. It gives Sukarno more financing for domestic improvement and it provides time for the development of more stability for Indonesia as a non-communist force. If it works that way no one will be able to complain.

The Good Earth

DREW PEARSON

Justices Black And Douglas Are At Odds

WASHINGTON—There was more than just the question of Colorado River water that caused the flare-up between the two oldest justices of the Supreme Court in point of service — Hugo Black and William O. Douglas. The reason was a woman.

These two had battled on the same side for 25 years, in agreement 99 per cent of the time. Most of the time they bucked powerful majorities, sometimes incurred vicious criticism. There have been demands for their impeachment and removal from the court, but always they stuck together.

During their 25 years they have never forgotten the ideals and aims of the man who appointed them. Other justices appointed by Roosevelt, especially Felix Frankfurter and the late Robert Jackson, strayed a long way from FDR's philosophy, but not Black and Douglas.

However, a coolness developed last fall when it became known in intimate court circles that Justice Douglas was planning another divorce.

Justice Black had taken the liberty of talking to his close friend when the latter's first divorce was in the offing. Their wives had been as intimate as they were.

DORIS FLEESON

JFK Would Enlist Nation's Mayors

WASHINGTON — President Kennedy's last-minute decision to meet with the nation's mayors in Hawaii is an acknowledgement that a high noon in race relations takes place in the streets of our cities.

Up to now the possibilities of rewarding federal-city cooperation in the present racial crisis had not been explored. How much can fruitfully be achieved in such brief contact is a question, nor does it appear that the mayors offer front-line commanders of exceptional caliber.

But they are there and they command the police and fire departments who must keep order if federal troops and ambitious governors are to be kept from center stage. News dispatches have yet to disclose how much time the mayors expect to give their gravest civil problem amid the delights and distractions of the newest state.

Hawaii happens to be a fortuitous choice for the discussion, as it is racially the most mixed state of the union, a fact long used as an argument against its statehood. Its Republican senator, Hiram Fong, is of Chinese descent. His Democratic colleague, Daniel Inouye, has Japanese forebears. The longtime congressman, Thomas Gill, is a Caucasian. All three were born in Honolulu; all served in World War II.

The President has unconcealed political motives in his entire western journey. The White House has been stung by comment that he has written off the West except California and will look to the big states and south for victory next year.

The 1958 Democratic class of senators has been unusually vocal about its problems, including marked lack of attention from the President

By MONA B. PARKER

The Atkinson Iris Society cancelled its fifteenth annual show this year and for a reason that could be disputed by no one. With the mercury dipping to 28 degrees there and ice a quarter of an inch thick, not only were flowers and other garden plants ruined, but there was much damage reported to alfalfa and other farm crops in the area.

Don Jacobson of the Shelton Clipper writes of more pleasant times and climes as he recalls boyhood days in Ohio and the last day of school.

"It was still and warm and the bees flitted lazily among the blooming flowers. It foretold slow, actionless days ahead—days that would be spent with a fishing pole or in the cool creek water pools."

When one is very young, and dreary, dragging hours in a classroom are the biggest bugaboo in existence, summer does indeed seem to be forever, viewed from the schoolhouse steps.

It is the line between childhood and maturity, between the dream world of everything in the clear focus of pleasure, and harsh cold reality.

To us, three months then meant an eternity of playing jacks on a warm sidewalk or mumblety-peg on the cool clipped lawn nearby.

... chasing the ice truck down the street and snatching wedges at the same hour each morning ... playing cowboy, with the sheriff's office in the garage and only one real and sturdy little pony to serve a multitude of eager riders ...

... baseball, swimming and sunbath ... a whole day of firecrackers on the Fourth of July ... corn drying on racks in the backyard ... and a crockful of sunshine cherries on the porch ...

... fried chicken and homemade ice-cream ... and

History will record Justice Douglas as one of the great jurists of this generation. His courageous opinions, his brilliant dissents will probably surpass those of Justice Oliver Wendell Holmes. And he has carried more than his share of the court's work.

Yet in private life he has been a restless, sometimes off on trips across the Himalayas, or the deserts of Iran, or the area around Mt. Ararat where Noah landed his ark.

Copyright, 1963, By Dell McClure Synd.

Lincoln, Neb.

About "E. G." who recommends the expansion of the already too powerful budget committee—is he:

(a) a talented and thoughtful citizen who has written a clever satire, or—

(b) someone who really wants to see Nebraska slip further into the 19th Century?

Last year I asked the advice of an NU engineering graduate student who suggested emphatically that I should go to a school with more research equipment and activity. My natural question was, "Why, then, are you here?" He answered that he had graduated elsewhere but his grades were so poor that his own school wouldn't accept him for graduate study.

Which is the greater economy—to spend considerable money training a few especially loyal Nebraskans and other schools' rejects, or to spend a little more, get the very best material, and turn out a really superior product?

LEWIS WEICK

The Young Farmer

Lincoln, Neb.

The criticism of F. R. Clark of Friend of "the younger generation" for their support of the wheat referendum is particularly inappropriate. The older generation, which Mr. Clark typifies, can afford to be independent toward programs because they made money during the lush years of the Korean War and World War II while the "younger generation" he condemns were serving their country in training camps and on battle lines.

The older generation enjoyed top prices during the war years before production costs had gone through the roof. When the soldiers returned, prices began to decline and production costs sky-rocketed. Unless he had well-heeled family connections, the beginning farmer was under the compulsion of making a profit every year. He had no backlog accumulated from war-time profits to fall back on.

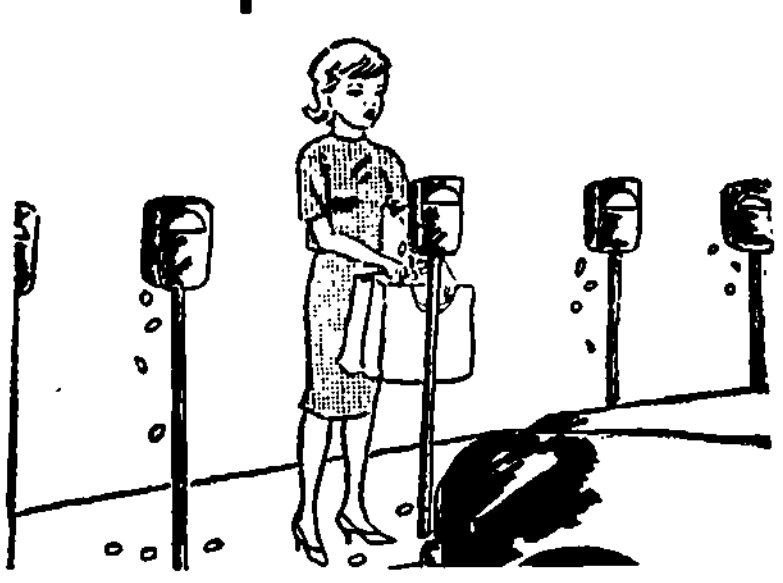

If he bought land, the capital payments and the interest for this as well as for high-priced machinery had to come out of his receipts besides operating costs and his living. When this is coupled with the fact that he usually had to content himself with a smaller farm with sub-standard fertility

and improvements, it is clearly an unequal race between him and the long-established land-owner.

It is ironic that the young men who were taken to protect their country should now be smeared for not being able to win in the agricultural slugfest with one hand tied behind them. They may be pardoned if they are inclined to believe that the same Uncle Sam who put them in the armed forces might be expected to preserve some sort of equal opportunity for them in the business of farming.

But the young farmers were not alone in the support of the referendum. Nebraska's vote "for" was 54 per cent. Older farmers, too, like to think of farming as a solvent business and not one from war-time accumulated savings in the expectation of a rise of land values.

G. A. SPIDEL
Master, Nebraska State Grange

There is many a municipal chore that goes largely uncoveted. However, there is one job that Fern Rose of the York News-Times admits freely she wouldn't mind having a crack at. She'd like to trip from parking meter to parking meter, pushing the little cart with the bucket that catches the coins from the meter when they are opened. The catch being, of course, that all the jingle-jangle could go into her own pocket.

everything else that was worthwhile in life ... Today three months, more likely than not, are considered in terms of one more installment due on the income tax.

And you pause to wonder, then, if perhaps the dream world of the very young is not the more enduring ...

The Harlan County Journal reports that an Alma woman found a check for a substantial amount of money under a rhubarb plant in her garden.

She was probably surprised at discovering all that lettuce.

Hyde Sweet of the Nebraska City News-Press told something of the effects of a recent wind storm in Fort Worth, the aftermath of which he viewed. One apartment house roof was torn off. Many filling stations were demolished. A brick wall at a supermarket fell on a car. And many other incidents.

Newsman Sweet says they weren't sure whether to classify it as a tornado or a

"straight wind." To him it really wasn't so important how it was filed. He described it as "terrifying."

A Polk County farmer and his wife had rather an unnerving experience after what they thought to be nothing more than a loud and dry thunderstorm. They knew the wind was strong, but didn't think much more about it. Ollie Johnson was in town when it came up and passed. Then he drove home, northwest of Polk. His wife turned on the yard light as he turned in the drive way so that he might drive on into the garage. There wasn't any garage there.

A Kearney couple was planning a trip to Fairbanks, Alaska, and came across some interesting facts to do with time and distance. The trip up will take them five minutes. The return trip will encompass six hours.

It all has to do with the fact that three time zones will be crossed from Seattle to Fairbanks.

Your Five Cents Worth

Brevity in letters is requested but length in itself will have no bearing on publication. Writers are advised that needless details and repetitious matter will be edited out of letters. Too frequent contributions from one person on the same subject may be rejected. All letters must be accompanied by writer's true name but may be submitted for publication under a pen name or initials. However, letters will be printed under a pen name or initials at the editor's discretion.

The Choice

Lincoln, Neb.

About "E. G." who recommends the expansion of the already too powerful budget committee—is he:

(a) a talented and thoughtful citizen who has written a clever satire, or—

(b) someone who really wants to see Nebraska slip further into the 19th Century?

Last year I asked the advice of an NU engineering graduate student who suggested emphatically that I should go to a school with more research equipment and activity. My natural question was, "Why, then, are you here?" He answered that he had graduated elsewhere but his grades were so poor that his own school wouldn't accept him for graduate study.

Which is the greater economy—to spend considerable money training a few especially loyal Nebraskans and other schools' rejects, or to spend a little more, get the very best material, and turn out a really superior product?

LEWIS WEICK

The Young Farmer

Lincoln, Neb.

The criticism of F. R. Clark of Friend of "the younger generation" for their support of the wheat referendum is particularly inappropriate. The older generation, which Mr. Clark typifies, can afford to be independent toward programs because they made money during the lush years of the Korean War and World War II while the "younger generation" he condemns were serving their country in training camps and on battle lines.

The older generation enjoyed top prices during the war years before production costs had gone through the roof. When the soldiers returned, prices began to decline and production costs sky-rocketed. Unless he had well-heeled family connections, the beginning farmer was under the compulsion of making a profit every year. He had no backlog accumulated from war-time profits to fall back on.

If he bought land, the capital payments and the interest for this as well as for high-priced machinery had to come out of his receipts besides operating costs and his living. When this is coupled with the fact that he usually had to content himself with a smaller farm with sub-standard fertility

of 1929, about the time I was appointed park superintendent. With the 1,440 acres, this made the largest increase in park land for the city and about doubled the acreage. We started to develop Pioneers Park in 1930 and continued through 1931, 1932 and up to May in 1933. We built roads, fences, a caretaker's house with brick donated by Mr. Bob Ferguson of Yankee Hill Brick Works, planted thousands of trees of all kinds all over the park, also the peony bed and picnic grounds. The golf course was built and grass greens were started and a water system put in with money from Antelope Park Golf. The zoo was moved from Antelope Park, about half a dozen ponds built, etc.

Mr. Chet Ager did develop Pinewood Bowl and planted more trees in Pioneers Park, trees that came from Woods Bros. Nurseries. That is to his credit. Also the nature center, which I hope develops into a nice project. The people of Lincoln can enjoy this in the years to come.

Concerning the sunken gardens at 27th and D Streets, this project Mr. Ager did not have a thing to do with. The sunken gardens were started in February, 1931, and we used the first unemployed men in Lincoln on the various projects. This was during the Hoover depression. Wages were low then: so was corn, 15 cents a bushel. The garden grew during 1931, 1932 and until May, 1933, before Mr. Ager even knew he was going to be superintendent. CLARENSE S. KITTINGER

But the young farmers were not alone in the support of the referendum. Nebraska's vote "for" was 54 per cent. Older farmers, too, like to think of farming as a solvent business and not one from war-time accumulated savings in the expectation of a rise of land values.

G. A. SPIDEL
Master, Nebraska State Grange

Park Development

Omaha, Neb.

I noticed an article in The Star of May 22 by Virgil Falloon concerning the Chet Ager Nature Center, etc. The article stated that Mr. Chet Ager was park superintendent from 1931 to 1940. For the record, I was appointed park superintendent by Ernest M. Bair on November 1, 1929, and continued to serve as such until May, 1933, at which time Mr. Chet Ager was appointed to the job.

Pioneers Park was given to the city of Lincoln by Mr. and Mrs. Harris in the fall

and improvements, it is clearly an unequal race between him and the long-established land-owner.

It is ironic that the young men who were taken to protect their country should now be smeared for not being able to win in the agricultural slugfest with one hand tied behind them. They may be pardoned if they are inclined to believe that the same Uncle Sam who put them in the armed forces might be expected to preserve some sort of equal opportunity for them in the business of farming.

PHONE-ALL DEPARTMENTS-432-1234

Gov. Frank Morrison made a special appearance before the Legislature Thursday to lament the death of his bill to create a new department of economic development.

He urged the lawmakers to draft and pass a substitute bill.

At the same time he urged strongly the enactment of pending legislation to provide state aid for driver education instruction in the schools, and creation of a statewide educational television (ETV) network.

The Legislature Tuesday killed 25-15 the governor's bill which would have combined industrial development efforts, tourist promotion and

state planning into the new economic development department.

Morrison had termed it his most important recommendation to the 1963 session.

"In your collective wisdom you discarded it," the governor told the Legislature Thursday.

"This does not relieve you of the responsibility of initiating action of your own."

Present Approach

"There is not a senator in this honorable body who believes that our present approach is adequate. The fact that our outmigration continues to exceed our immigration is irrefutable.

"For a small bureau in the Department of Agriculture to

be charged with the industrial development of this state and the Game Commission to be charged with tourist promotion when at the most, only 15% of the traveling public are interested in hunting and fishing is not a proper approach to our responsibilities."

The governor said he has detected that most of the objections to LB767 had been "to the language of the bill or to the motives of the governor."

But these objections, he said, "cannot be taken as a reason for failure to meet our obligations to the people of this state."

"A man's objection to the color of his wife's dress does

not relieve him from the obligation to support her."

He invited the Legislature to draft a bill which "will provide the necessary tools to push forward our industrial development program in this highly competitive age."

Driver Education

Referring to driver education, Gov. Morrison said a proper program could "more than pay for itself in savings alone."

"In the last 5-year period the number of Nebraska's teen-age drivers has in-

creased 10% but our teen-age accidents have grown 53%.

Last year we watched helplessly as 401 deaths and 14,000 injuries were recorded on the highways of Nebraska. The financial burden of this loss is incredible.

"A proper driver's education bill will be the most important tool in our hands to meet this situation."

ETV bills, the governor said ETV "affects our education, our culture, our economy, our well-being and your decision on this important matter will, in large degree, determine the direction of our movement in the years ahead."

Morrison said other states "are looking jealously to Nebraska for leadership in this field."

"The people of this state have a right to expect us to nail down the availability of these channels for the use of our people."

The Legislature approved 33-0 Thursday a Sen. Terry Carpenter resolution, No. 48, directing the state tax commissioner to review — and

revise if indicated — the schedule of values of personal property as drafted annually by the State Association of County Assessors.

The county assessors group meets each year and decides what valuations should be placed on items of personal property.

D's Scholl's Zino-pads

D-Day Remembered

The Legislature took note Thursday of the fact the day was the 19th anniversary of the D-Day invasion of the beaches of Normandy in France.

At the suggestion of Sen. Don Thompson of McCook, legislators stood in silent prayer for those Nebraskans and Americans who gave their lives in that action.

Legislators OK Invalid Chairs Bill

Crippled persons who use self-propelled invalid chairs to get around no longer would be required to hold driver licenses for operation of such wheel chairs under terms of a bill passed on final reading in the State Legislature Thursday.

The measure, LB779, introduced by the Public Health Committee, was adopted 38-0.

Other bills passed Thursday (E-emergency clause):

LB739 (Brandt) — Providing procedure for school board of a Class I district to accept the merger petition of another Class I district. (33-0).

LB790 (Dammow, Burbach) — Extending to prosecutions under city or village ordinance the provisions of law which presume intoxication when tests of body fluids show certain amounts of alcohol. (E) (36-1).

LB737 (McGintley) — Authorizing the state motor vehicles director to appoint examiners to preside over hearings under the implied consent law. (37-0).

LB723 (Gotschalk) — Setting procedures, conditions and limitations for the liquidation of domestic insurance companies. (E) (39-0).

LB763 (Banking Committee) — authorizing domestic stock insurance companies to issue nonvoting preferred stock. (33-0).

LB547 (Szasz) — Providing for the appointment and utilization of referees in the juvenile court. (E) (39-0).

LB518 (Stromer) — Deleting provision that any person may request jury trial of cases before the juvenile court, and giving the juvenile court concurrent jurisdiction of feeble minded persons. (E) (39-0).

LB728 (Szasz) — Providing that the state tax on boxing and wrestling matches shall be on the gross receipts exclusive of state or federal taxes. (E) (39-0).

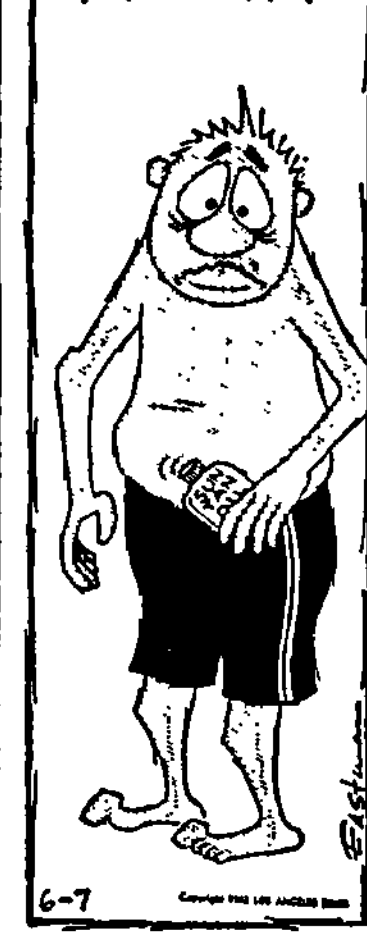

LB729 (Mahoney) — Providing for the licensing of physicians, managers, matchmakers, timekeepers, contestants or seconds at professional boxing and wrestling matches. (E) (38-0).

Robber Uses Alias

Spokane, Wash. (UPI) — A man charged here with robbery as John Henry Shultz, 28, has been identified as Albert A. Malarney Jr., wanted in St. Paul, Minn., and Crescent City, Calif., police said.

Broady Retiring From Administration

One of the most widely known and respected educators on the University of Nebraska staff for the past quarter century will retire from his administrative responsibilities July 1.

Dr. Knute O. Broady, 65, director of the Extension Division since 1941 and head, Nebraska Center for Continuing Education, has reached the mandatory age limit for administrative duties. He will continue to teach as professor of school administration in Teachers College.

He has been with the university for 35 years. The Iowa-born educator has

dedicated himself to the continuing education of children and adults almost from the beginning of his career.

Son Of Swedes
The son of Swedish parents, both physicians, he once helped manage a Chautauqua in the Midwest to pay part of his school expenses at Columbia University where he received his Ph.D. degree.

Before coming to NU, Dr. Broady was a high school teacher, principal and superintendent in Kansas. "I've never lost my interest in the administration of small schools, and now I am going to teach and research in this area for my remaining productive years," he said.

Dr. Broady counts among the highlights of his life the opening of the Nebraska Center for Continuing Education and the teaching of the first off-campus university course at Auburn in 1932.

Grant Solon Refutes Morrison Remark

Sen. Dale Erlewine of Grant refuted Thursday Gov. Frank Morrison's charge that the Legislature slapped Nebraska progress in the face by killing his Economic Development Department bill.

The governor is even more guilty, Erlewine declared, when he failed last January to recommend a broadened tax base.

Morrison has firmly op-

posed a sales or income tax and, after the Legislature defeated the income tax bill, he announced that this kept him "batting a thousand" with the Legislature, the Grant senator said.

Erlewine cited figures gathered by Sen. Kenneth Bowen of Red Cloud that under the existing property tax system, residents of Lancaster County pay 77 cents in taxes for every \$100 of income and

those of Douglas County pay 85 cents.

"In my 37th Legislative District the average tax payment is \$2.30 for every \$100 of income," the senator said, "so I don't think the governor slapped progress in the face."

"Instead, he slapped all of outstate Nebraska in the face by opposing a more fair and equitable method of taxation."

AT WORK . . . McWilliams and Sen. Marvel.

Lincolnite First Negro Page For Legislature

A quiet, mannerly Lincoln teenager Thursday became the first Negro to work as a legislative page.

Henry McWilliams, who will be a junior at Lincoln High School in September, considers the job a chance for a "new experience." He hopes eventually to go to college or business school.

"I like it real well so far," he said.

Sen. Edward Danner of Omaha, the only Negro in the Legislature, and Sen. Terry Carpenter of Scottsbluff were instrumental in getting McWilliams his job. They contacted him through a minister friend of Danner's.

McWilliams, 16, is especially interested in sports and plans to try out for varsity track and basketball at Lincoln High next term. Besides the legislative job, he also

works two hours every night in a playground operated by the city.

Legislative Clerk Hugo Srb said that McWilliams' uncle worked in the Capitol at one time.

A watered-down fair employment practices law bill is currently before the Legislature.

Biscuits Take On Festive Air

A hot biscuit always lends a gala air to any brunch, luncheon or dinner. They are particularly festive when they join certain members of the herb family, and you will learn why when you try this recipe:

HERBED BISCUIT ... BUBBLE RING

1/2 cup butter or margarine, melted
1 clove garlic, minced
3 cups sifted enriched flour
4 teaspoons baking powder

1 1/2 teaspoons salt
1/3 cup shortening
2/3 to 1 cup milk
1 teaspoon oregano leaves
1 teaspoon rosemary leaves
Combine butter or margarine and garlic. Sift together flour, baking powder and salt. Cut or rub in shortening until mixture is crumbly. Stir in enough milk to make a soft dough. Turn out on lightly floured board or pastry cloth and knead gently 30 seconds. Divide dough into 24 equal-size pieces. Shape into balls.

lend oregano and rosemary. Sprinkle 1/2 teaspoon herb mixture in bottom of ungreased 6 1/2-cup ring mold. Roll balls of dough in garlic butter. Arrange 12 balls in bottom of mold. Sprinkle 1 teaspoon herb mixture over biscuits. Arrange remaining biscuits over spaces in bottom row. Sprinkle with remaining herb mixture. Bake in very hot oven (450F) 20 to 25 minutes or until golden brown. Makes one biscuit ring.

Chicken Americana

Gertrude Stein might say that "a chicken is a chicken is a chicken." A chicken is a chicken, that's true, and when it is well cooked it always is good.

This morning we've found a new way to prepare one of America's favorite foods, and with a Fourth of July coming up it could have no better name than Chicken Americana. Here it is:

CHICKEN AMERICANA
(Makes 6 to 8 servings)

3 to 3 1/2 pounds frying chicken
1/4 cup flour
1/4 cup melted butter
2/3 cup (small can) diluted evaporated milk
1 can (10 1/2 ounces) condensed cream of mushroom soup
1 cup grated process-type sharp cheddar cheese

3/4 teaspoon salt
1/4 teaspoon crushed thyme
1 1/2 teaspoon pepper
8 to 10 small cooked onions
1/4 pound sliced mushrooms

Coat chicken with flour. Arrange chicken in single layer with skins down in melted butter in baking dish (12x7-1/2x2 inches). Bake uncovered in 425 degree (moderately hot) oven for 30 minutes. Turn chicken; bake until brown, 15 to 20 minutes or until tender. Pour off excess fat. Combine evaporated milk, soup, cheese, salt, thyme and pepper. Add onions and mushrooms. Pour mixture over chicken. Cover dish with foil. Reduce oven temperature to 325 degrees and continue baking for 15 to 20 minutes.

Patio Pepper Steak

1 flank steak (about 2 pounds)
2 medium onions
1 large green pepper
2 scallions
1 (5-ounce) can water chestnuts, sliced
1 (14-ounce) can pineapple chunks
1 clove garlic, minced
1 tablespoon chopped fresh ginger
1 1/2 tablespoons cornstarch
2 tablespoons sugar
1/4 cup soy sauce
2 tablespoons Sherry wine
1/4 cup bouillon
1/2 teaspoon salt
3 tablespoons salad oil

With sharp knife slice steak across grain on a slant into paper thin strips. Cut onions in eighths, then half. Cut pepper in large pieces. Slice scallions on a slant. Arrange meat, onions, green pepper, scallions, chestnuts and drained pineapple chunks attractively on platter. Place garlic and ginger in small dish. Mix cornstarch, sugar, soy sauce, Sherry, bouillon and salt. Pour half the oil into large heavy skillet. Heat until almost smoking. Add meat and cook quickly on both sides, not over 2 minutes. Re-

move meat to warm bowl. In skillet add rest of oil and onions, pepper, scallions, water chestnuts, garlic and ginger. Stir until pieces look shiny. Cover with close fitting lid for 1 minute. Add pineapple and combined liquids and cook 3 to 5 minutes, until vegetables are crisp tender. Stir in meat, heat a minute longer. Serve at once. Delicious with hot steamed rice. Makes 4 servings.

CREAMY BLUE CHEESE DRESSING
(Yield: 2 cups)

1/2 cup crumbled American blue cheese (about 3 ounces)
1/2 cup dairy sour cream
1/2 teaspoon salt
1 teaspoon Worcestershire sauce
1/2 teaspoon grated onion
1/4 cup lemon juice
1/4 cup mayonnaise

Mash blue cheese well with a fork. Blend with sour cream, salt, Worcestershire sauce, onion, and lemon juice. Add mayonnaise, mixing thoroughly. Chill. When ready to serve with salad, garnish with additional crumbled blue cheese.

Try This One

Whipped pineapple butter is superb on hot cakes. Whip 1/2 cup undrained canned crushed pineapple into two cubes of softened butter or margarine. Swirled over hot cakes or waffles it melts into a glistening, golden glaze. If there is some left spread it on breakfast toast.

SPANISH OLIVE FRUIT SALAD WITH SOUR CREAM

(Makes 4 servings)

1 large honeydew melon
1 cup hulled strawberries
1 cup peaches
1 cup fresh pineapple wedges
1 cup watermelon balls
1/2 cup whole pimiento-stuffed olives
1 cup cream-style cottage cheese
1/2 cup dairy sour cream
1 tablespoon honey
1/2 teaspoon ginger
1/2 teaspoon grated lemon rind

Sliced pimiento-stuffed olives for garnish. Split melon in half lengthwise. Remove seeds and scoop out melon with small ice cream scoop or melon baller. Reserve melon shells. Combine honeydew balls, strawberries, peaches, pineapple wedges, watermelon balls and 1/2 cup whole olives. Fill melon shells with fruit mixture. Mound cottage cheese on top of fruit. Combine sour cream, honey, ginger and lemon rind. Spoon dressing over cottage cheese. Garnish with sliced olives.

Glorified Pancakes

There is nothing lowly about a pancake — if it is well made and if it has cottage cheese included in the ingredients. The pancake actually is an all-seasons universal favorite. No longer is it strictly a breakfast dish for a cold winter morning — it has turned into something light, fluffy and utterly delicious for a Sunday morning brunch — or Sunday night supper. As a matter of fact, pancakes are good anytime — if they are made with the following recipe:

1 cup milk
2 tablespoons light corn syrup
1 tablespoon cooking oil
1 egg
1 cup pancake mix
1/3 cup cottage cheese

Combine milk, corn syrup, corn oil and egg in mixing bowl. Add pancake mix and stir until dry ingredients are moistened. (Batter will be lumpy). Lightly mix in cottage cheese. Bake batter on hot griddle, using about 1/4 cup for each pancake. Makes about 8.

Simple Summertime Recipes

This morning we decided on recipes for sandwiches—one quite fancy—some salads, and a recipe or two for salad dressings—plus dessert. Here they are:

GRAND SLAM SANDWICH

3 tablespoons butter or margarine
3 tablespoons flour
2 cups milk
1 teaspoon salt
1/4 teaspoon dry mustard
2 1/4 ounces bleu cheese crumbled
6 ounces Cheddar Cheese, grated
8 slices white bread, toasted
8 to 12 slices cooked chicken
8 slices crisp, cooked bacon
8 thin slices tomato

Melt butter in a saucepan. Stir in flour. Blend in milk, salt and mustard. Cook, stirring constantly, until thickened. Stir in Cheddar cheese and heat until melted. Trim crusts from toast. Arrange toast on a large heat-proof platter or shallow pan. Top each with chicken, 1 slice of bacon and a tomato slice. Spoon Cheddar cheese sauce over top. Sprinkle with crumbled bleu cheese. Broil until cheese is bubbly. Makes 8 sandwiches. (4 servings).

SPICY SALAD SANDWICHES

18 slices white bread
melted butter
1 1/2 oz. can deviled ham
2 tablespoons chopped green pepper
1 tablespoon chopped parsley
1 tablespoon mayonnaise
lettuce or cucumber slices

Cut each slice of bread into rounds with 3-inch cutter. Cut centers from 12 rounds with 2 1/4 inch round cutter to make rings. Brush 6 large rounds and 12 rings with melted butter. Stack 2 rings on each round to make a bread shell. Place on cookie sheet and bake quickly at 425 F. until just lightly browned, cool. Combine deviled ham, green pepper, parsley and mayonnaise. Place lettuce cup or cucumber slices in each bread shell then fill each with deviled ham mixture. Makes 6 salad sandwiches.

BLUE CHEESE OIL-VINEGAR DRESSING

(Yield: 1 1/2 cups)

1 clove garlic
1 teaspoon salt
1/2 teaspoon white pepper
1/2 teaspoon celery salt
1/4 teaspoon cayenne
1/4 teaspoon dry mustard
1/4 cup wine vinegar
1/2 cup coarsely-crumbled American blue cheese (about 3 ounces)
1 cup salad oil

Crush garlic with salt. Blend with pepper, celery salt, cayenne, dry mustard, vinegar, and half the blue cheese. Using a fork, mash cheese well into mixture. Slowly add oil, beating constantly until thoroughly blended.

ed. Stir in remaining crumbled blue cheese. Pour over salad, spooning chunks of cheese on top.

SURPRISE APPLE PUDDING

Buttered square pan, 9x9x2-inch. 9 servings. Preheated 375° oven.

1 1/2 cups dairy sour cream
1 cup firmly packed dark brown sugar

1 can (1 lb. 4 oz.) sliced pie apples
2 tablespoons butter
1/2 cup sugar
1 teaspoon vanilla
1 egg
1 cup sifted flour
1 1/2 teaspoons baking powder
1/2 teaspoon salt
1/4 cup milk

sour cream and brown sugar; In a bowl blend together sour cream and brown sugar; set aside. Spread apples evenly in pan. In a small mixing bowl cream together butter and sugar until light and fluffy. Add vanilla and egg; beat well. Sift together flour, baking powder and salt; add to creamed mixture alternately

with milk beginning and ending with dry ingredients. Spread evenly over apples. Pour sour cream and brown sugar mixture over batter. Bake 45-50 minutes. Note: Fresh apples may be substituted for the canned apples. Layer 2 cups of sliced apples in pan; sprinkle with 1/4 cup sugar.

Driver Education Bill Clears First Hurdle

A state program of driver education financed by increases in drivers license fees won 21-11 first round endorsement Thursday in the Legislature.

The proposal, LB478, a recommendation of Gov. Frank Morrison, was guided through its initial floor test by Sen. Don Thompson of McCook, chief legislative sponsor. Morrison himself made a personal appearance before the Unicameral hours earlier to plead for the bill's enactment.

Cigaret Fee Cut Possible Income Hiker

State revenue from cigarette taxes could be increased by nearly \$300,000 a year by reducing the fee paid to wholesalers for affixing the tax stamps, Sen. Jules Burbach of Crofton reported Thursday.

Chairman of the Legislature's Revenue Committee, Burbach said he will propose introduction of a bill to reduce from 5% to two per cent the fee allowed wholesalers for handling the stamps.

Because the fee percentage has remained constant, wholesalers have profited from each increase in cigarette taxes, including the June 1 increase from 4 to 6 cents per package, he noted.

Last year, while the tax was 4 cents, wholesalers pocketed \$343,279 for handling the stamps, Burbach reported.

The 5% fee on a 4-cent tax was the equivalent of two mills per package. Under the 6-cent tax, the fee becomes 3 mills per package.

Burbach calculated that by reducing the wholesalers' fee from 5 to two per cent, the state will realize an additional \$298,950 per year.

hurdle, the measure withstood on a 12-22 count a motion to kill offered by Sen. Cecil Craft of North Platte.

Cost of the driver training program is pegged at some \$400,000 a year financed chiefly by a 50-cent annual boost in drivers license fees. Operators licenses would be set at \$3 for a two-year period.

Probationary licenses, now \$1.50, would be hiked to \$5 for original licenses and \$2 for renewals. Learners permits, now free, would cost \$1 per year.

\$30 Or Less
The state driver training fund would be distributed to schools at a rate of \$30 per student who completes the course, or to pay actual cost of the program, whichever is less.

Minimum standards for the program itself and for instructors would be established by the State Board of Education. "You can't put a price tag on the loss of life on our highways," Thompson declared.

A comprehensive driver training program will produce "a much safer driver" and very likely will reduce the accident rate, he pointed out, particularly among teenage drivers.

36 Hours
The program envisions some 30 hours of classroom instruction and 6 hours behind the wheel, Thompson said. It will be aimed at youths between 14 and 18.

From a monetary standpoint, it should save accident costs and reduce insurance rates for participants from 10% to 15%, he noted.

"There is a question whether this program will decrease accidents," Craft declared in leading opposition to the proposal.

"It could well increase accidents," he suggested, by reducing parental responsibility in developing safe drivers.

"Engineering on the highway is the thing that will cut deaths," Craft said. LB-478 is "window dressing," he insisted, "not a cure-all."

Comparison
Craft also objected to "adding more training programs" to the public school curriculum, and he said Nebraska's death rate per million miles is declining and compares favorably with states which boast driver education programs.

Sen. Terry Carpenter of Scottsbluff said parents should assume responsibilities of teaching their children how to drive, but both Sens. Sam Klaver of Omaha and George Gerdes of Alliance argued that parents are the "poorest instructors possible."

Sen. George Fleming of Sidney proposed an amendment which would permit participation by parochial and private school students, but held the proposal for further study.

Thompson said all such students may participate under present language of the bill.

The 12 senators who voted to kill: Brandt, Craft, Gerhart, Gottschalk, Mahoney, Nelson, Payne, Russillo, Skarda, Stromer, Syas, Wylie.

Legislative Calendar

Park Sale Bill's Introduction OK'd

The Legislature's Government and Military Affairs Committee voted 6-1 Thursday afternoon to introduce a bill authorizing Fremont to sell city park land.

Sale of such land could be blocked, for a year, like the sale of other city property, by a petition signed by 30% of the voters in the previous municipal election.

The measure, which probably will be introduced Monday, contains the emergency clause which would make it law on the governor's signature if passed by the Legislature.

Red Writers—Register

Moscow (AP)—Moscow writers who are members of the Communist Party must register with party organizations at factories, schools and other institutions under a new order by the Soviet regime.

Methodists Denounce Dog Race Bill

Nebraska Methodists solidly voiced distaste Thursday with proposed legalized dog racing in the state.

A unanimously passed resolution by the 103rd annual Nebraska Methodist Conference expressed "vigorous opposition" to LB780, sponsored by the Legislature's Revenue Committee.

Conference Pronouncement Committee Chairman Dr. Henry Beatty of Columbus termed the Methodist resolution "an emergency measure."

Vigorously
The resolution read: "The Methodists of Nebraska, gathered in annual conference this week, are vigorously opposed to the bill legalizing gambling in dog races."

"The taxes it makes will be paid for in tears, broken homes and lowered moral standards."

Conference delegates were urged to contact their state senators in effort to persuade opposition to the bill before the conference ends Friday.

No Praise
An attempt to amend a resolution of the Special Committee on a Study of the Council of Churches was turned down by delegates Thursday.

The amendment offered praise for the council's work in legislative affairs.

Dr. Beatty's Pronouncement

Committee will introduce 19 resolutions on controversial world and state problems for conference consideration Friday morning.

In other Thursday conference action, delegates approved a resolution accepting the responsibility for raising \$700,000 for the St. Paul School of Theology, Methodist, in Kansas City.

\$1.08 Million
The sum was proposed by the Nebraska special committee on the school's affairs and is in addition to a \$1.08 million budget for which the World Service and Finance Commission is asking conference approval.

The conference's Board of Lay Activities received permission from delegates to undertake first stages of the \$700,000 campaign.

Thursday evening Bishop Arthur J. Moore of Atlanta,

Ga., called for a revival and release of spiritual forces in Methodist hearts and churches.

Ministerial Role
Speaking to the delegates in the last of 3 sermons, Bishop Moore emphasized the role of the minister in each man's spiritual life.

"The great need of this generation is a succession of prophets to stand in our pulpits with an interpretation of the Christian gospel which

will enlighten the intellect, quicken the imagination, stir the conscience and reinforce the will," he said.

Delegates selected Scottsbluff as the site for the 104th Conference in 1964.

HOME FURNISHINGS—MILLER'S SIXTH FLOOR

Filtered through a "mountain" of charcoal!

Today, Smirnoff outsells every brand of scotch and gin

Every drop of Smirnoff is filtered and refined through 7 tons of activated charcoal. That's 14,000 lbs! Literally a "mountain" of charcoal. Far more charcoal filtration than other vodkas use. This "black magic" removes most of the congeners. No wonder Smirnoff is the world's finest liquor. Smirnoff has no "bite."

Smirnoff blends perfectly with the flavor of fruit juices or soft drinks. Smirnoff leaves you breathless!

Today breathless Smirnoff outsells every brand of scotch and gin. Try it yourself, on the rocks or in a Martini, and find out why.

It leaves you breathless!

Smirnoff
THE WORLD'S LARGEST SELLING VODKA

Dr. John H. Calvert of Pierce was named Layman of the Year Thursday by the 103rd annual Nebraska Conference of the Methodist Church.

Meeting in its 4th day, the conference presented Dr. Calvert with the award at the Layman's Banquet at Trinity Methodist Church.

Dr. Calvert, a member of Pierce Methodist Church and a Nebraska Wesleyan University graduate, was cited

for faithful service and loyalty to Methodism.

Dr. Calvert's service includes membership on the Methodist Church Board of Missions, delegate to the 1951 Methodist World Conference in Oslo and membership on the Nebraska Board of Missions.

He has been particularly interested in Crowell Memorial Home and was chairman of the board during its building program.

In his local church, Dr. Calvert has been financial secretary, chairman of God's Acre, and chairman of the pastoral relations committee. He is now a member of the

board of trustees, and is active in choir and Sunday school work.

Dr. Calvert was born in Cook. He earned his medical degree from the University of Nebraska College of Medicine in 1929. He is past master of the Pierce Masonic Lodge, member of the Pierce Chamber of Commerce and past mayor and school board member in Pierce.

He has 3 children: John Jr., Marian and Katherine.

To Soothe Beast

Verona, Italy (AP)—A leopard escaped from the city zoo. The watchman of a nearby public school saw the animal stalking through a park nearby and called police. Alarm spread through Verona.

The zoo's animal keeper hurried to the scene, called the leopard as he does each day to feed him, and the leopard came up, hungry and docile.

Warner Readies Tax Earmarking

Waverly Sen. Jerome Warner confirmed Thursday that he is preparing a constitutional amendment which would earmark proceeds of a state sales or income tax to local school districts.

The amendment will "guarantee property tax relief," Warner said.

He said that he may bring the amendment before the Education Committee, hoping for its sponsorship of introduction.

I don't want to overestimate the importance of bathroom tissue

But I don't want to underestimate it either

After all, it can be a grace note in a home, can't it?

As far as I'm concerned, I always buy PAGE tissue and take the tissue problem off my mind

You've every good reason to buy PAGE

Of course you want a soft bathroom tissue. And strong. And economical. Just say PAGE and you say everything that's good about bathroom tissue. Probably you know. If you don't, you'll be mighty pleased to find out.

Parochial School Bus Bill One Vote Short Of Gaining Introduction

By DON WALTON
Star Staff Writer

A proposed new bill which sought a vote of the people on the question of providing tax-supported school transportation for parochial and private students fell one vote short of gaining introduction Thursday in the Legislature.

The bill was sponsored by the Labor and Public Welfare Committee at the request of Sen. Terry Carpenter of Scottsbluff and Eugene Mahoney and William Skarda, both of Omaha.

Carpenter's effort to introduce the bill won 25-11 approval, but 26 affirmative votes were required to secure introduction.

Carpenter argued that the people should be allowed to determine "whether they want to make free transportation available to all students."

Then, the issue could be adjudicated in the courts, he said.

Called For Vote

The bill called for a vote on a constitutional amendment to extend free transportation provisions now provided to public school students to all elementary and secondary school children.

If the amendment had been voted upon and approved, it would still have been left to the Legislature whether to

New Ice Age Elephant At Ft. Robinson

Dr. C. Bertrand Schultz, director of the University of Nebraska State Museum, announced Thursday that a large, ice age elephant will be mounted complete and standing at the University's Trailside Museum at Fort Robinson this summer.

The specimen is unusually large — just a foot shorter than the largest North American land mammal ever found (also an elephant at the State Museum in Lincoln).

The mammoth is one of two found last summer on the ranch of Tom Moody Sr. and his son, James, near the fort by George McMillan and Rennie Ferguson of Crawford.

The find was of great interest to the scientific world primarily because the specimens about 12,000 years old, were among the last of their kind to roam America and were the kind hunted by early man for food. They were found with their tusks locked together and there is a possibility they had been fighting before their deaths.

Dr. Schultz called the mammoth "a real community elephant because of the outstanding help the people in the Dawes and Sioux County area have given the university."

Two June Graduates Get Dobson Award

Two University of Nebraska students who will receive their degrees from the department of civil engineering Saturday were presented the Adna Dobson Memorial Award in recognition of marked ability and promise of success.

The recipients are William E. Holland of Overton, who has a scholastic average of 8.572 (9 is perfect) and has received a Rhodes Scholarship for study next fall at Oxford University.

Gordon Rex Smith of Imperial, who has a 8.257 average and has been awarded the Ideal Cement Company Fellowship for graduate study in civil engineering at the university.

enact such a law or not.

A number of lawmakers objected to raising the issue late in the session.

"I am confident that no demand has come from the people involved," Sen. Albert Kjar of Lexington said. The bill was "very poorly timed," he suggested.

Sen. Arnold Ruhnke of Plymouth contended that the measure would "produce controversy and strife between religions" and result in "divided communities."

Ruhnke said the bill could receive full attention in the 1965 session.

Sen. Cecil Craft of North Platte said the proposal would "stir up communities now living in harmony."

Upset Balance

The final court decision might even "upset the equilibrium" now established on a cooperative basis between private, parochial and public schools, he declared.

But Carpenter replied that the status quo is appealing "because some people don't wish to face the realities of life. Too many people try to find ways not to do things."

Sen. Clifton Foster of Bradshaw said the proposal adversely affects the constitutional division of church and state.

In supporting the bill, Sen. Frank Nelson of O'Neill noted that parochial and private schools relieve the tax burden of all Nebraskans.

Transportation could be provided to those students "without any great additional expense," he said, and such a move would result in "community betterment."

Mahoney said the people should not be deprived of an opportunity to express their opinions on the issue.

Vote on the motion to introduce:

For: Babensky, Bowen, Bredenbaugh, Duback, Carpenter, Clausen, Fleming, Furrer, Gerdes, Guttschall, Hasenbrouck, Kjar, Klover, Mahoney, Marvil, Nelson, Orme, Payer, Ruedell, Skarda, Stromer, Barber, Bras, Warner, Wyle.

Against: Brandt, Craft, Damrow, Erling, Foster, Gerhart, Linsinger, H. Hasmussen, Ruhnke, Skader, Thompson.

Not Voting: Adamsen, Danzer, Kramer, McGinley, Moulton, E. Hasmussen, Severs.

POSTCARD by

Stan Delaplante

The Normandy apple trees are in full white blossom now. The country towns near the invasion beaches were blazing 10 years ago today — D-Day plus one.

They are rebuilt now of beige stone. And at sidewalk tables or Norman country hotel courtyards, you can taste the last year's harvest in the flavorful cider or the fiery Calvados.

This was the first large town taken by the American 5th Corps, 1st Army. It was taken intact on the 7th of

June. Unscarred by air strikes or artillery fire.

It is a pretty Norman town of narrow streets and brisk outdoor markets.

There is a high, spired Norman Gothic Cathedral of Notre Dame in the same fine condition as when it was built in 1077.

The quick capture also saved the Bayeux Tapestry. This huge work details the history of the conquest of England by the Norman Duke, William the Conqueror. It was done about that time. Wool embroidered on linen, 76 1/2

yards long on a band 1 foot, 8 inches high.

Up the road are the high cliffs and the invasion beaches: Omaha where the 1st Division came out of the landing craft into murderous fire of thick concrete gun emplacements.

Juno, Sword and Gold Beaches where the British and Canadians waded in, sinking their ships behind them to form a breakwater.

At seaside Arramanches — (It is gay with sidewalk umbrellas at this time of year) — you can see the remains of

"Mulberry B." The artificial port was started on D-Day by sinking floating caissons of concrete and connecting them with floating piers.

While the Americans moved into Bayeux, the British swung toward the big industrial seaport of Caen.

It took them until July 7th. And British military cemeteries are all around the city.

They are small, hidden retreats. At St. Laurent, the American Military Cemetery is a large affair of white Carrara marble and Greek pillared memorials.

The British Commonwealth

chose to make theirs smaller and to disperse them.

The fields above the landing beaches are grass-green now in the Spring in Normandy. Grass grows on the rubble of gun emplacements. Thick concrete and twisted, rusting wire reinforcement. Grass growing in the crevices of the gun silts where some unknown German soldier looked out 19 years ago and saw on the horizon the gray warships.

The beaches here are broad and sandy. From the cliffs you can see the children below playing with striped red-white-and-blue beach balls.

At this time 19 years ago, there were American voices in Bayeux. Montgomery had set up British headquarters in the castle park at Creully and was turning the Canadians toward Caen.

The fishing village of Port-en-Bessin was in American hands.

The sea road to Grandcamp was secured.

Patton was gathering the armored forces for the breakthrough at St. Lo.

Armor, K-rations, sulfa, typewriters, shells, cannon, jeeps were coming over the floating piers of Mulberry B and Mulberry A.

Tanks ground down country roads showered with apple blossoms.

Today it is quiet and sunny here in Normandy. There are bathers on the landing beaches. And on the hill, where a memorial British tank has been placed, children climb the turret to play at war.

A NEW GROUND FLOOR LOCATION FOR YOUR ADDED CONVENIENCE

House Committee Votes To Leave Oil, Gas Depletion Rules Untouched

Washington (AP) — The House Ways and Means Committee voted Thursday to leave untouched the 27½% depletion allowance the oil and gas industry uses to reduce its income taxes.

The committee, rewriting President Kennedy's tax reduction and revision bill, turned down 3 administration proposals that would have hiked the industry's tax bill by amounts estimated up to \$280 million a year.

The committee decision leaves out of the draft bill any changes in depletion allowances on other minerals as well as oil and gas.

The revisions advocated by

the administration were fought hard at committee hearings and elsewhere by industry spokesmen who said the financial burden would drastically curtail exploration for petroleum in this country and put American companies operating abroad at a crippling competitive disadvantage.

The Treasury proposal had not been to change the 27½% figure, which is the highest existing depletion allowance, but instead to restrict the basis for computing the allowance. There would have been a limitation on the deductions that could be carried over from an unprofit-

able to a profitable year, a curb on the grouping of oil properties for depletion calculations and a limit on the allowance of foreign tax credits and other special deductions applicable to operations abroad.

Another administration proposal, of limited application and estimated to be worth \$18 million a year in revenue, also rejected by the committee Thursday.

Under this proposal, persons who consistently give away the great bulk of their income would no longer have been exempt from the 30% limit on deduction of charitable contributions.

801st Bill Is Put On General File

The Legislature voted 32-0 Thursday afternoon to place on general file the 801st bill of the session, one which would remove certain restrictions on vehicles which can operate on the Interstate Highway.

The bill was introduced at the request of Gov. Frank Morrison by Sens. Albert Kjar of Lexington and Harold Stryker of Rising City.

The bill would lift vehicle length restrictions on the Interstate which apply there now as well as on other Nebraska roads.

The limitations would remain on the state system.

They limit vehicles to 40 feet overall length and tractor and truck combinations to 60 feet.

Jobless Teens Hit 18% In May, 25% Of Total

Washington (AP) — Teen-age unemployment climbed to 18% in May, the Labor Department said Thursday, and now more than 25% of all the jobless are youngsters out of school and out of work.

An unexpectedly large number of teen-agers pouring into the job market resulted in the seasonally adjusted unemployment rate edging up from 5.7 in April to 5.9 in May.

Teen-age unemployment was 16% in April and only 14% in May 1962. In May, the figure climbed to the highest level recorded since the Bureau of Labor Statistics began keeping seasonally adjusted figures in 1949.

Total unemployment remained at the April figure of 4.1 million, with 1.2 million of the total teen-agers. However, normally total unemployment goes down from April to May and this accounts for a rise in the seasonally adjusted percentage.

"Situation Critical"

"These figures reflect a critical situation; a situation which would develop into one of the most explosive problems in the nation's history," said Secretary of Labor W. Willard Wirtz.

Wirtz, in a statement released along with the May figures, added:

"The teen-age employment problem is complicated by the big increase in population in this age group, and the declining number of unskilled jobs in today's labor market."

"While it is true that a great many of the teen-agers listed as unemployed during the month of May are looking for summer jobs while they are still in school... it is equally true that the month-by-month figures on teen-age employment are indicative of a situation that demands action."

Labor Department experts have been predicting for some months that the "baby boom" that followed World War II would hit the labor market this summer as the first batch graduated from high school.

Harold Goldstein, spokesman for the Bureau of Labor Statistics task force handling job figures, said the big impact of teen-agers leaving school for summer jobs and permanent jobs normally isn't felt until June but the May surge was much larger than normal.

Meanwhile, unemployment among adult males dropped at about the seasonal level, but increased among women at a time it normally goes down.

Now available! New Silver Dust blue detergent with AMAZING OFFER!

DEAR ABBY

Abigail Van Buren

DEAR ABBY: Again it has happened to me. I went in to a restaurant and saw they had children's size meals listed on the menu. I ordered one and they refused to let me have it because I am not a child. I am 46 years old, very petite, and am seldom hungry enough to eat an adult-sized restaurant meal. What does my age have to do with the amount I eat?

SMALL EATER: Nothing. But when dining out it is not only the "food" one pays for—but the service. Children's portions are offered for less—as a courtesy to the accompanying adults. But just try to order half a banana split because you can't eat a whole one.

DEAR ABBY: You hear so much about single girls falling in love with married men. Once in a blue moon the married man actually gets rid of his wife and marries the single girl. But, believe me, this is rare. I am a man and have been around a lot, and would like to give you three foolproof excuses used by married men when the girl friend puts the pressure on them:

(1) I don't have any feeling for my wife, but I love my children. When they are grown and gone, we'll get married.

(2) You are too good for me. I am going to get out of your life so you can find the kind of a man you deserve.

(3) My wife is sick, and I can't leave her in that condition.

"USED THEM ALL"

EASTBOROUGH

The calendar may list June 21 as the first day of summer, but as far as all the Suburban small fry are concerned, that extra-special favorite season begins today. Scarcely anyone will have to make a trip to school after this afternoon.

It's true—the grand and glorious days of summer and summer entertaining seem finally to be here and Mr. and Mrs. Raymond A. Degenhardt and their children Dannie, Joan, Alice, David, and Carol, will be taking advantage of the fair weather this weekend to visit relatives in Miltonvale, Kan.

They plan to leave tomorrow morning, and will be spending Saturday and Sunday with Mrs. Degenhardt's parents and sister, Mr. and Mrs. Carl Richards and Barbara.

Neighborhood residents who will be entertaining in their back yard tomorrow evening are Mr. and Mrs. Marvin J. Flickinger and their children, Melony and Cheryl.

Their guests for the evening picnic will be two families who have moved from Manitoba, Canada, to reside in Lincoln. These new residents are Mr. and Mrs. Gordon Kroeker and their two daughters and son and Mr. and Mrs. Mervin Brandt and their son.

Mr. and Mrs. Flickinger and their children must be very busy Eastborough residents, for they just recently returned from a visit with friends and relatives in Pretty Prairie and Wichita, Kan.

They returned last Saturday after spending four days in the Sunflower State. While in Wichita, they were houseguests of Mrs. Flickinger's parents, Mr. and Mrs. Leslie Unruh.

A neighborhood resident who was hostess at a farewell luncheon and handker-

chief shower at her home Saturday was Mrs. Harry J. Rust who entertained in honor of a Lincoln resident who soon will be moving to Springfield, Ill.

The guest of honor was Mrs. James Wickstrom, and she and Mr. Wickstrom and the couple's children, Lucinda, Steve, and Janie, will move to Springfield on June

15. Those honoring Mrs. Wickstrom at the luncheon were Mrs. Phil Youngquist, Mrs. W. A. Godfrey, Mrs. Calvin Hemmingsway, and Mrs. Jim Kirk, all of Lincoln. Guests coming from out of town were Mrs. Charles Wagner, York, Mrs. Rex Bruerher, Springfield, Mrs. Vaughn Mickey, Osceola, Mrs. Ar-

nold Demmel, Amherst, and Mrs. Dan Bartusek and Mrs. Roger Duhnke of Omaha.

Mr. Rust joined his wife in the hosting role on Sunday evening when they entertained in honor of more Lincoln residents who soon will be leaving the city.

Their guests of honor that evening were Eastborough

residents Mr. and Mrs. Joe Ritter, whose farewell courtesy by Mr. and Mrs. Rust was an outdoor steak fry attended by members of an Eastborough bridge club.

Those honoring Mr. and Mrs. Ritter were Mr. and Mrs. Robert Bridges, Mrs. Beatrice Boughn, Mr. and Mrs. Norbert Kampsneider, Mr. and Mrs. Robert Longman, and Mr. and Mrs. Stanley Rodenberg.

To tell you a little more of Mr. and Mrs. Ritter's moving plans, we should say that they and their children, Cathy, 17, Barb, 15, Bill, 12, Randy, 9, and Bryan, 6, are leaving Lincoln in the middle of the month, and they will be making their home in Livonia, Mich., near Detroit.

More Eastborough residents who have just left Lincoln for a temporary home in Washington, D.C., are Mr. and Mrs. Paul E. Scheele and their children, Carla, 8, Christie, 5, and Karin, 4.

They left Lincoln yesterday, and will be spending the next three months in Washington where Mr. Scheele will be working with the Bureau of the Budget.

A visitor in Eastborough this week was Bernard Dugdale, who spent a few days with his son-in-law and daughter, Mr. and Mrs. Glen Manske, and their son and daughter, David and Pamela.

Mr. Dugdale, an Onawa, Iowa, resident, arrived in Lincoln on Sunday, and returned to Onawa on Wednesday.

"Luau" Is Farewell Courtesy

Saying "Aloha" in true Hawaiian fashion on Thursday were the members of the Naval and Marine Officers Wives Club who met for luncheon at Hillcrest Country Club.

The Hawaiian "luau" theme was chosen for the party as the luncheon hon-

ored those members who will be leaving Lincoln for the summer months, and, true to predictions, Thursday's humid weather was perfect for the colorful and cool muumuu's and grass skirts worn by the members.

From the left are Mrs. Frank G. Dailey, Mrs. E.

B. Rogers, Mrs. Walter J. Mitchell, Mrs. Maurice Brasette, club president, and Mrs. G. R. Underwood.

Welcome Alums to Lincoln!

DAR Board Will Meet

Mrs. Herbert H. Selleck of Alliance, state regent of the Nebraska Society, Daughters of the American Revolution, has announced a meeting of the board of management, to be held Saturday, at the Yancey Hotel in Grand Island.

During the meeting of the state officers, state chairmen and regents of DAR chapters in the state will hold a workshop session to plan activities of the organization for the coming year.

Mrs. Selleck will address the group during the noon luncheon as will Mrs. Fran-

cis F. Birnbaumer of Lincoln, newly-elected vice president-general of the national Society of DAR, and immediate past state regent.

Also attending from Lincoln will be Mrs. B. C. McLean, state registrar; Mrs. William Folger, regent of Deborah Avery Chapter; and Mrs. Levi Wilcox, regent of St. Leger Cowley Chapter.

ESA Officers Are Installed

Mrs. R. A. Newkirk was hostess at her home on Tuesday evening to the members of the Epsilon Sigma Alpha sorority's city council.

During the evening, the following newly-elected council officers were installed: president, Miss Delma Lefler; vice president, Mrs. John Waldron; secretary, Mrs. Bill Elias; and treasurer, Miss Sandy Schnuerle.

Plans also were discussed for the sorority's annual summer picnic.

Has Election

At the May meeting of the Lincoln Films Forum, the group elected Mrs. Anna Wiperman president for the coming year.

Also named to office were Dr. J. L. Kunkel, vice president; Mrs. Marie Huber, secretary; Mrs. Rex Bailey, corresponding secretary; Mrs. E. E. Thoreson, treasurer; and Miss Florence Atwood, librarian.

Bride On Thursday

Miss Judith Ann TeSelle, daughter of Mr. and Mrs. Ivan TeSelle of Firth, became the bride of Paul E. Kolenbrander, son of the Rev. and Mrs. D. J. Kolenbrander of Holland, at a candlelight ceremony solemnized Thursday evening, June 6, at the Holland Reformed Church. The lines of the service were read at 7:30 o'clock by the Rev. Mr. Kolenbrander, father of the bridegroom, and Mr. Harold Kolenbrander, organist, played the wedding music. The vocalists were Mrs. Brien Hendrickson of Lincoln.

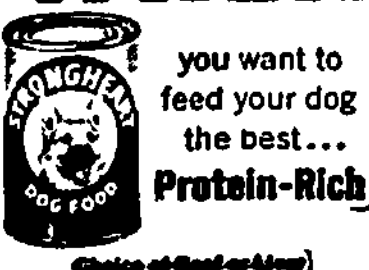

Wearing bell-skirted frocks of white taffeta and carrying sprays of calla lilies were Mrs. Wayne DeBoer, Lincoln, who was her sister's matron of honor; the maid of honor, Miss Eunice Kolenbrander, sister of the bridegroom; and the bridesmaids, Miss Ardith Liesveld, Firth; Mrs. Norman Papke, Colorado Springs; Mrs. John Carle, Iowa City; and Mrs. Doug Liesveld, Lincoln.

Harold Kolenbrander of Iowa City served as best man, and seating the guests were Gale TeSelle and Lawrence Paschold, Firth; Douglas Liesveld, Lincoln; James Ludens, Sheboygan, Wis.; and Ronald Bielema, Morrison, Ill.

The bride chose white peau de soie and French lace for her wedding gown. The lace-over-silk bodice was completed by lace sleeves cuffed with silk at the elbows, and the silk skirt was caught into controlled fullness at the waist. Her court train of lace, which extended to chapel length, was banded with the silk, and her heartshaped calot of lace and silk was briefly veiled with illusion. She carried long-stemmed white roses.

Mr. and Mrs. Kolenbrander will reside in Pella, Iowa, where the bridegroom is a senior at Central College. The bride is a former student at Central College.

GIRLS SHOP — THIRD FLOOR

Meeting for dinner and installation of officers on Wednesday evening were the members of the Lincoln Chapter, International Association of Career Women.

Directing the group's activities for the coming year will be Miss Verna Hahn (seated at left), president; and Miss Mary Louise Sullivan (at right), vice president; and (standing, from the left) Miss Helen Warden, secretary; and Miss Helen West, treasurer.

Sorority Has Banquet

The 29th Founders Day banquet of Nebraska Alpha Chapter, Delta Theta Chi sorority, was held last Saturday night at the Hotel Cornhusker with members of Nebraska Beta and Gamma Chapters of Omaha as guests.

Mrs. Richard Vestecka, chapter president, was mistress of ceremonies, and during the evening, Mrs. Donald Baird and Mrs. Ralph Cole were pledged to the group.

Special guests were Miss Loretta Cutler, national president of the sorority, Miss Margaret Cochran, province educational director and Miss Ingeborg Kristiansen, province corresponding secretary, all of Omaha; and Miss Norma Hensen of Lincoln, province president.

Miss Frances Brunahan was in charge of banquet arrangements assisted by Mrs. C. E. Mitchell, Jr., and Miss Elfriede Muennich.

Birthday Honoree

The children of Burt Huddleston, 2801 South St., will honor their father on his 80th birthday anniversary with an open house at his home on Sunday, June 9.

Hosts and hostess for the open house will be W. R. Huddleston, T. E. Huddleston of Omaha, J. C. Huddleston, Mrs. Lowell Howey and Mrs. O. B. Phillips.

Friends and neighbors of Mr. Huddleston are invited to attend between the hours of 2 o'clock and 5 o'clock without further invitation.

Time To Test Your Bridge IQ

B. Jay Becker

QUIZ

You are the dealer, neither side vulnerable, and have opened One Club. Partner responds One Heart. What would you now bid with each of the following five hands?

1. ♠7 ♥KJ2 ♦A63 ♣AQ7543
2. ♠AQ5 ♥Q3 ♦KQ5 ♣AQJ62
3. ♠8 ♥Q643 ♦AK2 ♣KQ954
4. ♠AK72 ♥K84 ♦5 ♣AKJ53
5. ♠AQ8 ♥AJ74 ♦K2 ♣KQJ3

1. Two hearts. The possible

rebids are two clubs, three clubs, two hearts or three hearts. None of these hits the mark precisely. Two clubs would identify a six-card suit, more or less, but would misrepresent the strength of the hand. Thus, a two club bid would be proper with ♠AK5 ♥8 ♦962 ♣KQ9742, and we have a far better hand than that. A jump to three clubs could be based on something like ♠84 ♥AJ ♦KJ6 ♣AKQ875, and our

hand isn't that good.

A jump to three hearts would be all right if the six of diamonds were the six of hearts, but, lacking a fourth heart, we can't very well double-raise with only three trumps and a hand containing only 14 high-card points.

The bid that comes closest to being accurate is two hearts. This has the merit of encouraging partner to go on, because, regardless of how he appraised his hand originally, he is bound to think more highly of it once he learns there is a heart fit. Two hearts might induce a further bid from him which a two club bid would not.

2. Three notrump. It is reasonable to assume that partner has a minimum of 6 points. Since this assures us of at least 26 points in the combined hands, we go directly to game. Partner might pass with 6 or 7 points if we jumped to two notrump.

3. Three hearts. Partner needs more than just a 6-point hand to make a game, so we can't go to four ourselves. We want to give him a chance to get off the hook if his first response was based on a dead minimum. The double raise is highly invitational to game.

4. Two spades. Here you take the position that there is a game somewhere, and the way to be sure of getting there is to make a jump-shift, which is not merely invitational but forcing. Game may lie in spades, hearts, clubs, or even notrump.

5. Four hearts. It is hard to imagine a hand partner could have which would not produce a good play for ten tricks. At the same time, the leap to four invites partner to go on towards a slam. The jump to game shows a about a 20-point hand, though some of the points may be in the form of distribution.

August Bride-Elect

Mr. and Mrs. Warren L. Ripa of Wilber make announcement this morning of the engagement and approaching marriage of their daughter, Karen Ann of Lincoln, to Dennis M. Albert, son of Mr. and Mrs. Lester Albert of Clatonia.

The wedding is planned for August.

Mr. Albert is attending the University of Nebraska.

They Made It To The Park!

Beginning the summer with a great deal of enthusiasm were the members of the Y-Teen Pedal Pushers Club who met on Thursday morning for a "bike-hike" to Pioneer's Park.

The wind-blown bikers, all set for a few games and a

sack lunch, include (from the left) Judy Templeton, Karolyn Stalder, Kathy Toombs, Susan McNeese, Christine Bailey, Markeen Strauss, Shannon Mason and Mary Jacobs.

Any teen-age girl in Lincoln who is interested in the

group and its activities is welcome to join.

First prize winner may elect \$4,000.00 cash in place of the carload of oranges. The choice must be made known within 30 days of notification. Any tax or liability on any prize will be the sole responsibility of the prize winners. Only one prize will be allowed per family.
5. 300 second prizes will be awarded. Each second prize will consist of one Proctor-Silex Juicit (Model 2731). No cash substitute may be made. One prize only will be allowed per family.
6. Entries are limited to residents 18 years of age and older of the United States. Employees and their families of Sunkist Growers, its advertising agencies and Sunkist Direct Advertising Agency are not eligible.
7. Sweepstakes held in Florida, Virginia and Wisconsin, and in any other state where issued, prohibited, or otherwise restricted by law.
8. For a list of prize winners, send a stamped addressed envelope to: Sunkist Growers, P.O. Box 346, San Francisco 1, Calif. Do not send this request with an entry.

Grassroots Move Might Ease Crisis

Washington (AP)—The Kennedy administration hopes for a vast grassroots movement of racial reconciliation to head off a possible wave of bloody race riots North and South this summer.

This word came Thursday from a source in close touch with administration planning. President Kennedy, this informant said, intends to fight hard for new civil rights legislation.

To Be Tough

"It will be a tough fight," he said. "But we feel more people are aroused now and we have a greater chance of getting legislation than we had last year. At any rate, we can't just sit here and be impotent. We have to demonstrate we are acting."

But the federal government cannot do the job alone, he said. It is up to governors, mayors, clergymen, educators, newspaper publishers and other civic leaders to sit down with Negroes, demonstrate interest in their condition, and show them definite signs of progress.

Otherwise, the official said, things may get grim this summer. Students released from colleges and schools, and aroused by what they

Friday Nite

\$100 CASH FREE

Register at
WARD'S
Friday 6-9 p.m.

consider victories won in Birmingham and elsewhere by street demonstrations, may try the same tactic on a larger scale.

In the South, he said, "White Only" signs will be a continual source of exacerbation to Negroes, a continual insult unless removed. But there is tinder also in the Negro ghettos of the North, he said.

Many Jobless

For example, he mentioned that 17.8% of the Negro population of Chicago is unemployed "and there obviously is going to be dissatisfaction there."

The dissatisfaction of the Negro North and South is deep and genuine," he said. "He wants the rights of full citizenship — and he wants them by yesterday."

"Of course this is impossible. For example, it would be impossible to desegregate the whole South now without occupying it by all the military forces of the United States."

But the great danger is that unless real progress is made, the Negro may lose confidence in the white man's good faith. This would open a wound which would be damaging to the whole country."

And newspapers can play a great role, the official said. He said that, among others, newspapers in Atlanta, Nashville, Chattanooga and Anniston, Ala., had done fine work toward helping solve racial problems.

The administration source expressed the view that for southern political leaders, "the wave of the future" lies in being conciliatory, rather than extremist.

Maybe Brakes Failed

Flekkefjord, Norway (UPI)—Survivors of a bus crash which killed 9 students said they believed something might have been wrong with the vehicle's brakes. The driver, a student, was killed.

FAT OVERWEIGHT

Available to you without a doctor's prescription, our drug called ODRINEX. You must lose up to 7 days or your money back. No strenuous exercise, laxatives, massage or taking of so-called reducing candies, crackers or cookies, or chewing gum. ODRINEX is a tiny tablet and easily swallowed. When you take ODRINEX you still enjoy your meals, still eat the foods you like, but you simply don't have the urge for extra portions because ODRINEX depresses your appetite and decreases your desire for food. Your weight must come down, because as your own doctor will tell you, when you eat less, you weigh less. Get rid of excess fat and live longer. ODRINEX costs \$3.00 and is sold on this GUARANTEE: if not satisfied for any reason just return the package to your druggist and get your full money back. No questions asked. ODRINEX is sold with this guarantee by:

TERMITE EVIDENCE SUPPRESSED

Lancaster District Judge Herbert Ronin Thursday upheld a motion to suppress evidence obtained in connection with a fraudulent termite extermination business with which 3 men are charged.

Frank Reed of Springfield, Mo., and Jay and Kenneth Jarrett, both of 5005 Adams, each charged with two counts of obtaining money by false pretenses, had asked the court to suppress certain evidence obtained by law enforcement officers by a search warrant.

Ronin ruled that all evidence not specifically described in the search warrant should be suppressed. Thus, it cannot be admitted at the trio's trial.

At the time the 3 men were arrested, police said the trio would obtain permission to inspect residences for termites, secretly bringing the insects into the houses, and then showing the "planted termites" to the owners to convince them they needed extermination service.

County Atty. Paul Douglas said he was sure the evidence suppressed would not alter the case in any way.

Vadim Loses License

Paris (UPI)—Movie director Roger Vadim, former husband of actress Brigitte Bardot, received a two-month suspended jail sentence, a \$200 fine and lost his operator's license for driving while drunk. He was charged after his car rammed a parked vehicle last year.

Hearing Set For Prison Paper Editor

The inmate who edits the prison paper at the State Penitentiary will be up before the State Board of Pardons for his second parole on the same offense Wednesday, July 10.

He is Kenneth Wells Jr., of Omaha, sentenced to 12 years by a Lancaster District Court July 16, 1953 on a rape conviction. Wells was later paroled but violated it and was voluntarily committed to the Norfolk State Hospital for psychiatric treatment after admitting he accosted a 13-year-old girl.

Wells, now 31, was returned to the Penitentiary after being released from Lincoln State Hospital where he had been transferred from Norfolk.

Another Penitentiary inmate scheduled for parole consideration by the board is Raymond L. Tapia, now serving a 7 year sentence he received from a Lancaster District Court on a second degree arson conviction for his part in a 1955 penitentiary riot.

Tapia, also 31, had been serving time for robbery.

In 1960, he had a year lacked onto his time for an attempted escape.

In all, a total of 12 prisoners in the penitentiary part of the Nebraska Penal Complex will appear before the board July 10. The following day, 10 inmates from the reformatory will be considered for release.

Hearings set with age, home, crime, county where convicted, sentence and date of sentence:

PENITENTIARY
Albert E. Blair: 24; North Bend; is state no account checks; Dodge; 3 years; April 6, 1962.
Hugh Stalworth: 25; Omaha; robbery; Douglas; 6 years; Nov. 2, 1961.
Lawrence Gunn: 29; Omaha; larceny; Douglas; 4 years; Dec. 13, 1961.
James W. Fletcher: 26; St. Louis; grand larceny; Douglas; 3 years; June 12, 1962.
Per P. Mudiott, Sr.: 49; Grand Island; non support and violation of bench parole; Hall; one to three years; May 31, 1962.
Arthur C. Richman: 40; Harrisburg; forgery; Kimball; 2 years; Dec. 21, 1961.
Kenneth C. Wells Jr.: 31; Omaha; rape; Lancaster; 12 years; July 16, 1953.
Raymond L. Tapia: 31; Denver, Colo.; second degree arson and attempted escape; both Lancaster; 7 years and one year; Jan. 23, 1956 (started serving Jan. 17, 1962), and Sept. 6, 1960.
Clem Wynn: 35; Harrisville, Okla.; stealing auto; Lancaster; two years; July 27, 1962.
Elmer C. Garcia: 38; Mexico; sodomy; Scotts Bluff; 10 years; Aug. 17, 1959.
John Nitsch: 36; Hunter, Kan.; breaking and entering; Scottsbluff; 3 years; April 25, 1962.
Norval K. Colombe: 34; Blair; rape; Washington; 15 years; Aug. 25, 1959.

REFORMATORY
Carl J. Spurek: 45; transient; forgery; Brown; one to two years; Aug. 15, 1962.
Dale R. Haley: 19; Omaha; burglary; 2 to 4 years; Sept. 6, 1961.
Roger Lee Fenderson: 23; Omaha; burglary; Douglas; one to three years; July 27, 1962.
Roland E. Delesene: 29; Omaha; burglary; Douglas; one to three years; July 2, 1962.
Franklin F. Moore: 42; Omaha; issuing no account checks; Douglas; one to three years; Sept. 14, 1962.
Ronald McCombs: 19; Danversport, Iowa; auto stealing and violation of bench parole; Lancaster; 1 1/2 to 3 years; April 27, 1962.
Walter Fred III: 22; Kearney, N.J.; issuing check to defraud; Lancaster; one to three years; July 25, 1962.
Michael Patterson: 21; Gilbert, Minn.; issuing check to defraud; Lancaster; one to two years; Aug. 21, 1962.
William H. Neal: 33; Garden City, N.Y.; motor vehicle homicide; Lancaster; one to two years; Oct. 12, 1962.
William N. Neal: 33; Kentucky; insufficient fund check; Red Willow; 1 1/2 to 2 years; July 21, 1962.

Tennis Aplenty On LTC Slate

... CLUB HAS IMPROVEMENTS

By DAVE WOHLFARTH
Star Sports Writer

Tennis anyone? Plenty of action in the net sport and improved facilities are in store for this summer's members of the Lincoln Tennis Club, according to LTC president Barry Jackman.

This summer's tennis activities will include two major tournaments, several club tournaments, intercity matches, lessons for beginners, the annual Elks Tourney for the small fry and plenty of late-afternoon "just for fun" duels.

The Lincoln City and Nebraska State Closed Tournaments will both be held sometime in July, Jackman said. Both are scheduled for the LTC's 7 clay courts at Normal and South Streets.

Jackman said the exact dates for the tournaments will be announced later by tournament chairmen Jim Porter and Dick Gibson.

Reds Pound Bucs Twice

Pittsburgh (AP)—Cincinnati swept a two-night doubleheader from Pittsburgh Thursday night, 7-5 and 10-5, with Frank Robinson slugging a pair of homers in the opener and Gordy Coleman driving in 5 runs in the nightcap.

Coleman collected his 5 runs batted in with a bases-loaded triple, a single and a bases loaded walk after the red-hot Robinson made it 4 homers in two games with his first game blasts that drove in 3 runs.

MICKEY... struggles from plane onto a lift.

Docs Forecast 5-Week Rest For Mantle's Foot

New York (AP)—A second examination of Mickey Mantle's left foot Thursday showed that the New York Yankee's \$100,000 outfielder will be out of the lineup "a minimum of 5 weeks."

Dr. Sydney Gaynor, club physician, made the examination after the player was brought here from Baltimore, where his left foot was hurt Wednesday night when the spikes of his shoe caught in a wire fence while he was chasing a home run by Brooks Robinson.

"Mantle has an undisplaced slightly oblique fracture of the 3rd metatarsal with fragments in excellent alignment," Dr. Gaynor announced after an hour-long examination.

"Fortunately, he suffered no other injury. The cast placed on the foot is a very good one and needs no adjustment. However, it will take a minimum of 3 weeks for the bone to heal."

Beckhoff Is Trapshoot Title Holder

Doniphan (AP)—David Beckhoff, Thorndore, captured the opening event as the 85th Annual Nebraska State Trapshoot Thursday.

Beckhoff shattered 49 of 50 targets in the open doubles competition. Second place went to John Voss of Omaha, but he had to win a shoot-off to collect the runnerup trophy.

Voss broke 47 of 50 targets along with Warren Miller of Stratton and Leonard Ross of Burns, Wyo. Voss broke 19 of 20 in the shoot-off, one more than Miller and Ross.

Defending champion Buford Bailey of Big Springs was among the field Beckhoff defeated. Bailey broke only 15 targets this morning.

Two shooters, William E. Johnson of Loomis, and Verne Robertson of Omaha shared 4th place with 46.

Bailey won the director's shoot with a score of 197x200 at 27 yards.

Yank Quartet Still Remains

St. Andrews, Scotland (AP)—Defending champion Dick Davies of Pasadena, Calif., twice fought back from the brink of defeat Thursday and led a quartet of Americans into the quarter-finals of the British Amateur Golf Championship.

Other U.S. winners in a day of double eliminations were two of Davies' Walker Cup teammates, Dr. Ed Updegraff of Tucson, Ariz., and Dick Sikes of Springdale, Ark., plus an outsider, Dr. Ron Lucetti of San Francisco, an Army dental corps officer stationed in Germany.

Two other Americans—Chris Blocker, 23-year-old soldier stationed in Italy, and Hugh O'Donnell, Hollywood

Washington's Win Streak Now At Four

Washington (AP)—Larry Osborne's two-run homer in the first inning carried Washington to a 2-1 victory over Boston Friday night and extended the Senators' winning streak to 4 games, their longest of the season.

The Senators nailed the victory with Ron Kline's 9th inning relief hit. Kline came on for starter Dave Stenhouse after the Red Sox had loaded the bases with two out on singles by Roman Mejias and Chuck Schilling and a walk to Gary Geiger.

Kline then got Carl Yastrzemski to hit back to the mound for the final out.

That preserved the victory for Stenhouse, now 3-6. He had checked the Red Sox on only 5 hits going into the 9th.

Belmont Entry List Reaches Seven; Candy Spots Is Tabbed As Favorite

New York (AP)—Candy Spots, or no Candy Spots, money still shouts and new recruits for the \$125,000-added Belmont Stakes were bouncing around Thursday like Mexican jumping beans. The latest count was 7, but don't bet on it to stay at that figure.

Instead of the 5 colts expected for the tough 1½-mile grind to be decided for the first time at Aqueduct Saturday, at least 7 will go in the 95th running of the race, wrapup of the Kentucky Derby-Preakness-Belmont Triple Crown.

The latest to be heard from were Hirsch Jacobs, who trains Bonjour for his daughter Patrice, and Joe Kramer, trainer of Choker for Louis Lee Haggin II.

"Bonjour is a definite starter if nothing happens to him between now and the race," said Jacobs. "He's fit and can go from here to China."

Choker Entered

The ink wasn't dry on that communique before Kramer hung up the telephone after talking with Haggin, and said to count on Choker.

"We've made up our minds — might as well run," said Kramer. "Johnny Rotz will ride."

Bobby Ussery, who won a one-mile race with Bonjour last Saturday, will pilot the Jacobs colt, who won the Derby Trial but was 6th in the Derby at Louisville when Chateaugay upset favored Candy Spots.

The Belmont winner stands to collect about \$100,000, depending on how many owners shell out \$250 for entries Friday, and another \$1,000 to start Saturday at approximately 3:48 p.m. EST.

Nationwide television and radio CBS is from 3:30 p.m. EST.

Candy Spots Picked

There isn't a trainer who will say flatly his horse can beat Candy Spots, who is

rated a 1-4 shot. The opposition admits unanimously that the California colt, who has won 3 Derbies this spring — Santa Anita, Florida and Jersey — as well as the Preakness should win again.

But they don't share the same enthusiasm for each other, and a little matter of \$43,750 is keeping them awake nights. The small black print in the race conditions gives \$25,000 to the second horse, with \$12,500 for 3rd and \$6,250 for 4th.

"Usually by midweek, the Belmont line-up is pretty solid," one Aqueduct official noted. "Now I wouldn't even guarantee how many will take a shot when the entries close, and I wouldn't bet on that until I see them busting out of the starting gate Saturday."

Senators Denounce Boundary Settlement

The Nebraska Legislature gave resounding 36-0 approval Thursday to a resolution denouncing a portion of the recent Nebraska-South Dakota boundary settlement.

Specifically, the resolution points out that authority of the State Boundary Commission pertains only to establishing boundaries and not fishing and hunting rights.

The resolution rebuffs that portion of the tentative agreement reached in Omaha May 10 allowing reciprocal fishing and hunting rights in the Gavins Point Dam tailwaters on the Missouri River near Yankton, S.D.

The Omaha agreement was reached by the governors and boundary commissions of the two states after a dispute erupted over fishing rights in the fish-rich tailwaters.

Sen. George Syas, Chief sponsor, said the resolution "protects the rights of the sovereign state of Nebraska."

The Omaha lawmaker made it plain he was displeased with the boundary Commission and governor for "meddling in something that was none of their business."

Too, Syas said, the Boundary Commission has no authority to make recommendations about the possibility of Omaha annexing Carter Lake, Ia. "This is also outside of the commission's area of authority," he said.

First Guest Day Set

The Lincoln Country Club's women's golf group will hold its first guest day Monday. The "shotgun" starting time is set for 8 a.m.

Athletics Interested In Omaha Farm

... KC'S FRIDAY SPEAKS AT SERIES LUNCHEON

Omaha, (UPI)—Pat Friday, general manager of the Kansas City Athletics, said Thursday if the American Association is revived, he hopes Kansas City could have a farm club in Omaha.

Friday was the main speaker at the College World Series luncheon. The series opens Monday with 8 district champions scrapping for the national NCAA baseball championship.

By-play between Ed Pettis, Omaha's general chairman of the tournament, and Charles Nelms, assistant to the NCAA director, indicated Omaha may not wish to host the series next year.

During his luncheon speech, Friday said the Athletics would prefer to have a triple-A farm club closer geographically than their present team at Portland in the Pacific Coast League.

Pettis reported officially at the luncheon that about \$10,000 in reserved seat tickets have been sold so far for the college series. He said if attendance this year reaches the 39,000 recorded during last year's tournament, there was a good chance the series would return to Omaha for the 15th consecutive year in 1965.

However, in the discussion at Friday's news conference,

Pettis and Nelms debated two key issues which could affect the return of the tourney — the sale of beer at the park and Sunday games.

Pettis said he had already lined up enough supporters to underwrite the 1964 tournament, but he said some of them might back out unless the lure of ball park beer and the big draw of Sunday games was available. The NCAA has vetoed both.

RAINSTORM DELAYS BUICK OPEN ACTION

Grand Blanc, Mich. (AP)—A thunder and rain storm washed out the first round of the \$52,000 Buick Open Golf Tournament Thursday, cheating Tony Lama of a 5-under-par 67 score which paced first finishers.

WHEN YOU NEED SHOCK ABSORBERS

simply say Delco

How do you know when your shocks are dangerously bad? Your car "bottoms" on bumps. "Lurches" at stops. "Leans" on curves. The tires wear unevenly. Ask a United Delco serviceman to check your car now. He can spot trouble before it begins. He recommends Delco Superide shock absorbers. They have a nylon-skirted piston which prevents metal-to-metal wear between piston and cylinder. Your car rides smoother longer.

Delco Superide shock absorbers (for normal use) and Delco Superlift shock absorbers (for extra-heavy loads) are distributed nationally through United Delco.

Moscow (UPI) — American opera singer Lorrin Maazel closed a 4-week tour of the Soviet Union with a farewell concert that brought 12 curtain calls, showers of flowers, and numerous gifts from the audience.

"The desire to sell frequently results in a paper design based on a trivial and inadequate amount of research information . . . In most cases, unfortunately, these salesmen of paper designs try to sell a system development upon which any rational design and development must be based."

Gov. Frank Morrison is seated at left while Robert Ammon, representing the Board of Education, presents a diploma to a beaming graduate of Lincoln Southeast High School. Morrison was the principal speaker for the commencement ceremonies at which diplomas were awarded to some 300 students. (Star Photo)

A black and white movie poster for the film "First Spaceship on Venus". The poster features a large, stylized title "FIRST SPACESHIP ON VENUS" in a bold, sans-serif font. Above the title, it says "DOORS OPEN 12:45" and "Starts Today". Below the title, it says "TOTALVISION TECHNICOLOR®". The central image shows a rocket launching from a launch pad, with a large plume of smoke and fire. Below the rocket, there is a smaller image of two astronauts in space suits standing on a planet's surface. The text "YOU ARE THERE... as they discover the Venusians' vitified Forest!" is written in a stylized font. At the bottom, it says "starring YOKO TANI OLDRICK LUKES". On the left side, there is a small box with text about parking for Stuart and Nebraska after 6 p.m. at various locations.

Ganet Schoenrock '63 Dairy Princess

By GLENN KREUSCHER
Farm Editor

Ganet Schoenrock of Gladstone, was selected 1963 Nebraska Dairy Princess Thursday evening at the American Dairy Association annual contest in Lincoln.

Miss Schoenrock, a 5-foot, 2-inch blonde, was a 1963 graduate of Fairbury High School. She is the daughter of Mr. and Mrs. Paul Schoenrock and comes from a dairy family that owns 32 milk cows.

The new princess has had 7 years of 4-H club work and won many honors at county and state events. She plans on attending business college.

Blonde Alternate

Selected as alternate princess was another blonde, La Jean Kuhl of Rising City. She is the daughter of Mr. and Mrs. Jean Kuhl.

Other finalists in the day-long program of interviews,

Santa Fe, Mo Pac To Start Merger Study

Chicago (U) — One of the nation's longest and richest railway companies, the Atchafalaya, Topeka and Santa Fe, and the Missouri Pacific Railroad have agreed to begin a joint study on the feasibility of merger.

The study, described as a prelude to determine if there is a basis for further merger talks, was announced by Ernest B. Marsh, Santa Fe president, and Downing B. Jenks, president of the Missouri Pacific.

Marsh and Jenks said consideration also will be given to any other Western railroad interested in joining the merger.

If negotiations are begun, this would be the third large merger of Western lines in prospect.

The Union Pacific and the Chicago, Rock Island and Pacific Railroad revealed merger plans last month which ultimately would involve some Southern Pacific lines.

The Northern Pacific, Great Northern, and Chicago, Burlington and Quincy railways already have a merger program in progress in the Northwest.

and presentations in both street and formal dress, were Charlotte Christensen of Mudison and Karla Kay Reed of Wausau.

Judges of the princess contest were Joe Martin of KOLN-TV; Sue Smith, home editor of the Nebraska Farmer, and Phil Cole, dairy extensionist at the University of Nebraska College of Agriculture.

Crowned

Princess Ganet was crowned by Phyllis Riddle of Bartley, 1962 Nebraska Dairy Princess. Miss Schoenrock was awarded a \$250 college scholarship by the American Dairy Association (ADA) of Nebraska and a complete set of luggage from the Dairy Industries Association of Nebraska.

The Dairy Princess contest is held each June by ADA as an introduction to Dairy Month. The princess program is held to provide glamour and fun for some young lady who represents the dairy farmer's organization for a year in telling the story of milk and dairy foods at fairs, exhibitions and agriculture meetings.

Other former dairy princesses attending the ceremonies were Mrs. Shari Lewis Erway of Lincoln, 1956; Joyce Baumann of Hastings, 1960, and Earlene Timm of Omaha, 1961. Miss Timm was recently named Queen of the College World Series.

Mrs. Diane Butherus, Miss Nebraska of 1957, sang the new ADA "Dairy Princess" song just prior to the crowning of the 1963 Princess.

Student Beaten After He Kisses Date Good-Night

A 21-year-old University of Nebraska student was beaten early Thursday morning after he had kissed his date good-night.

The youth told police that as he turned from the girl's door, several men hit him with fists and a bottle, knocking him to the ground.

As he attempted to pick up his books, the men pulled his Bermuda shorts down.

Six stitches were required at Lincoln General Hospital to close a wound the student sustained in the attack.

NAPOLEON OF THE JUNGLE

Astronaut Gus Grissom wears a palm-leaf hat designed to keep off the rain and strikes a Napoleonic pose during jungle survival training in Panama. All 16 astronauts of the National Aeronautics and Space Administration, who will split up into two-

man teams for their trek deep into the jungle, are taking part in the exercise. From left are: Astronauts Scott Carpenter, Walter Schirra, Grissom, Ed White II, John Young and an unidentified Air Force instructor.

Miss Universe State Finalists Known Friday

The 10 finalists in the state Miss Universe contest will be announced Saturday night at 8 p.m. at Pershing Auditorium, and will be crowned by Lt. Gov. Dwight Burney at the end of the pageant.

Judges for the event are Mrs. Kaer Vanice, Dick Agee, Joe Silverman, Bob Devaney and Burney.

Venezuela Next Cold War Test Site

By WILLIAM L. RYAN
AP Special Correspondent

The Western Hemisphere's next big cold war test is only months away.

Exhibiting alarm, an Organization of American States committee warns the hemisphere that Venezuela, a prize of enormous value, is the target for the next attack. It urges united action to prepare for it.

This was no surprise. A Red bridgehead in Venezuela could menace all South America. It has been a primary target for some time. But the danger is rising rapidly now.

Reds Attack

An exclamation point was supplied for the OAS warning by the Communists themselves with an attack on a U.S. installation in Caracas by terrorists Wednesday night.

Fidel Castro's recently concluded Moscow visit seems to have brought agreement ending Red confusion over contending Soviet and Chinese ideas on whether revolution should be pushed violently at any risk or cautiously through nearly legal methods. The answer in Latin America seems to be: the methods will be blended.

Venezuela will have national elections in December. If

President Romulo Betancourt finished his term, he will be the first democratically elected president in Venezuelan history to do so. Now the Castro-Communist alliance seems to be trying to stack the deck in its favor.

Close study of Red propaganda indicates this line of attack:

The Communists will try to participate in the election campaign behind what they call a "democratic coalition." In the style of Cuba's Communists, they will try to dominate the coalition. If it has prospects of winning, they

can hope to set up and dominate a "national front" government. This would be the "legal" approach.

Use Other

If this means to power seems headed for failure — and that is likely — the other method will be used. Chances are that the Latin American Communists prefer the violent way.

This plan appears to be to prevent elections from being held and to keep Betancourt from finishing his term. The pressure will mount constantly until the climactic days of the campaign.

Greensboro Jails 278 Demonstrating Negroes

Greensboro, N.C. (AP)—Mass arrests were resumed here Thursday night as hundreds of singing, hand-clapping Negroes paraded through the downtown section and sat down in the middle of the city's main intersection.

The anti-segregation demonstrators, estimated to number more than 800, staged their sit-down after serenading one of their leaders who was jailed earlier in the day. They gathered outside City Hall, where Jesse Jackson, president of the student body at North Carolina A&T College, was being held in \$1,000 bail on a charge of inciting to riot. This charge grew out of a peaceful demonstration Wednesday night.

Sat In Square

From the City Hall, the group marched to the intersection of Elm and Market streets, known as "The Square," where they sat down. Det. Capt. William

Jackson, standing in the middle of the intersection, warned that they were blocking traffic and would be arrested if they did not move on.

When the demonstrators continued to sit, nearby police cars and buses were brought in. The officers began loading the non-protesting demonstrators for the trip to jail. They were booked on charges of obstructing traffic.

Police arrested 278, including about 50 juveniles. The rest of the crowd dispersed.

Earlier Thursday, Mayor David Schenck had called an urgent meeting of the city's business and civic leaders for Friday morning to consider what course to take "to prevent further deterioration of relations between the races in Greensboro."

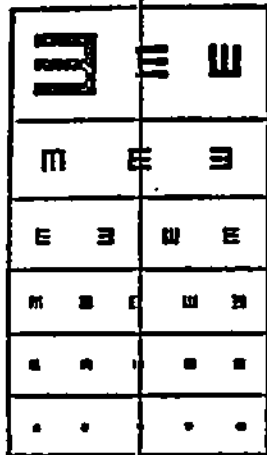

Jackson, 21-year-old sociology junior from Greenville, S.C., who has led integration efforts here for nearly a month, refused to post bond. "I know I am going to jail, the 6-foot, 3-inch football player told 35 to 40 Negro high-school students gathered for a meeting at the Church of the Redeemer. "I'm going without fear. It's a principle for which I'll go to jail and I'll go to the chain gang if necessary. I'm going to jail because I refused to let another man put a time table on my freedom."

North Carolina does not have chain gangs.

The inciting-to-riot charge grew out of Wednesday night's demonstration which, for the first time, included a sit-down in the street in front of Municipal Building, where the mayor and City Council meet.

TEACHER MAKES GOOD HIS PROMISE

Leon Moyer, right, a teacher at Jacksonwald, near Reading, Pa., told his pupils not to throw snowballs back in December and they asked when they could. He told them to wait until the last day of the term—and then forgot about it, but the kids didn't. They had enlisted the aid

of the school cooks, cached a batch of snowballs in the school freezer. Thursday they broke them out and called for Moyer. He unhappily lived up to his promise as they pelted him with the now-solid iceballs.

Piano Player Becomes Mother Of A Daughter

Philadelphia (AP)—Mrs. Kenneth Amada, the former Susan Starr, 20-year-old internationally known concert pianist, became the mother of a daughter Thursday.

She gave birth to a 5 pound, 4 ounce baby in Jefferson Hospital. The father also is an internationally known pianist. The child is the first for the Amadas.

Meredith Registered For Summer School

Oxford, Miss. (AP)—The University of Mississippi's first Negro student, James H. Meredith, registered for the summer session Thursday.

The 29-year-old senior arrived back on campus from Jackson, Miss., to find things a bit different than they were during the long and lonely winter session.

The dormitory quarters included another Negro student, Cleve McDowell, 21. And the campus, though mainly hostile, no longer seemed to pose the threat of deadly danger.

Meredith, a slender, dapper man, scooted his little foreign car by the law college to pick up McDowell, who had just completed his first class at Ole Miss.

McDowell, coatless with a white shirt and dark tie, had walked to the law school building unaccompanied—although U.S. marshals watched from a few hundred feet away.

In a television talk at Jack-

son Wednesday, Gov. Ross Barnett said the might of the U.S. government got McDowell into Old Miss and is now responsible for his safety.

At Baxter Hall, the men's dormitory where both were assigned, McDowell helped Meredith carry his belongings to his room.

Both were ignored by most white students. Some 2,000 of them are expected to register for the summer session—about half of the student population during the fall and spring sessions.

Only PHILCO gives you a

"NOISELESS"

AIR CONDITIONER with all these quality features!

HERE'S THE INSIDE STORY ON TODAY'S GREATEST AIR CONDITIONER VALUE

Quieter operation at full cooling capacity is just one of the important benefits you get with a Philco Noiseless Air Conditioner. Compare!

OVERSIZE BLOWER FAN—Quieter!
With extra size, deep blades and efficient squirrel cage design it moves more air at slower fan speed... greatly reduces both motor and fan operating noise and vibration.

DEEP-PITCH DISCHARGE FAN—Quieter!
New, balanced, one piece fan assures quiet operation for a lifetime. Deep-pitched fan blades move more air at slower fan speed.

ADJUSTABLE QUIET-FLOW GRILLES—Quieter!
Large openings let air flow freely... greatly reduce sound of rushing air. All directional grilles provide draft free, wall-to-wall cooling.

RUBBER COMPRESSOR MOTOR MOUNTINGS—Quieter!
Philco mounts the compressor motor bottom and top at five points to reduce and absorb both mechanical and motor vibration.

SEALED FAN MOTORS—Quieter!
There's no open end to let noise in.

PUSHBUTTON CONTROLS Set it for "fast cooling" or "normal cooling"... "fan high" or "fan low." Fan can also be operated for ventilation without cooling.

AUTOMATIC THERMOSTAT Automatically turns cooling on and off to maintain the comfort level you select. 8 settings.

SPECIAL VENTILATION CONTROL Lets you exhaust stale air and bring in fresh, filtered air from outside whenever you like.

TILT-DOWN METAL FRONT Gives instant access to adjustable grilles... and to filter when cleaning is necessary.

WASHABLE GERMICIDIAL FILTER Easy to remove, clean and replace. Permanent built in germicide will not wash out.

NO-DROP DEHUMIDIFICATION Removes gallons of water from the room air each day. No dripping inside or out.

STAGGERED COIL CONDENSER Assures efficient transfer of heat. Aluminum fins and copper tubes are safe from corrosion.

STAGGERED COIL EVAPORATOR Assures that all air coming in flows over and around refrigerated coil surfaces.

GALVANIZED STEEL CONSTRUCTION Gives 2 to 3 times longer life than regular steel.

HERMETICALLY SEALED MOTOR COMPRESSOR.

Easier to Install

Do it yourself in minutes... no tools needed! Fits any sized window from 27 to 33 inches wide. No screws. No drilling! Weather tight!

U.S. Airlines Can Fly Over Cuba Again

Washington (AP) — The government lifted Thursday its 7-month ban on American commercial airliner flights across Cuba.

The State Department announced it advised the Federal Aviation Agency to remove the prohibition because such flights appear to be safe.

Airliners from other countries have been flying over Cuba right along. The ban had put U.S. airlines flying from Miami to Latin American points at a time and money disadvantage because they had to detour around the 700-mile-long island.

State Department Press Officer Lincoln White made plain that the action was a U.S. decision involving no dealing with the Castro Communist regime.

The U.S. government slapped the restriction on American craft during last October's tension when it was feared that the Cubans might fire on the planes.

"Based on the fact that foreign airlines have overflown Cuba without incident during the past several months," White said, "our judgement is that the risks to safety of

such overflights to U.S. carriers are minimal."

White made these further points:

Consent Not Needed

No consent from Cuba was needed or sought for the resumption of commercial overflights. A 1944 international aviation agreement to which Cuba and the United States both are parties allows scheduled overflights and emergency landings without further explicit consent of the country concerned.

The resumption of commercial air service between the United States and Cuba is not planned. Pan American Airways flew regularly from Miami to Havana before the missile crisis brought a halt to the flights. The airline considered the run a money loser.

Pan American and Braniff will be the airlines most af-

ected by the removal of the Cuban overflight ban.

Other State Department authorities said the surveillance of Cuba by military planes to guard against another offensive weapons buildup still is being carried on.

Reds Urge Hiking

Berlin (AP) — East Germany's Communist regime is trying to stir the urge to hike. Its committee for tourism and hiking promises a special badge to every citizen who walks "100 peace kilometers (60 miles) for the victory of socialism," reports an unofficial Western intelligence service.

Power Failure
The City Light Department said a brief power failure Thursday afternoon for a localized area near 24th and South was caused by a malfunctioning breaker in a substation. A spokesman said power was off only 3 or 4 minutes.

He'll Buy And Sell Theft Insurance

Dover, Del. (AP) — If he's not already covered, Sal Lobaccaro will be buying some robbery insurance.

A masked bandit held up Lobaccaro's West Dover package liquor store and escaped with \$26. The robber threatened to kill the clerk.

Lobaccaro also owns an insurance business, and its offices are next door to the liquor store.

Although he sells robbery insurance, he said he wasn't sure whether his own property was covered.

Lack Of Interest Forces Canceling Of 3rd Bus Tour

Gov. Frank Morrison's Third Annual Motorcoach Tour has been canceled, according to his assistant, John Kelley.

Kelley said that he was unable to find the necessary number of people interested in taking the tour of southern Nebraska.

He said 30 people were needed to make the trip economically possible, but that only a handful had indicated an interest in the tour.

The tour has been rescheduled for this fall, said Kelley, when there is autumn scenery along the Missouri River.

A new and different LUCITE® for outside your home!

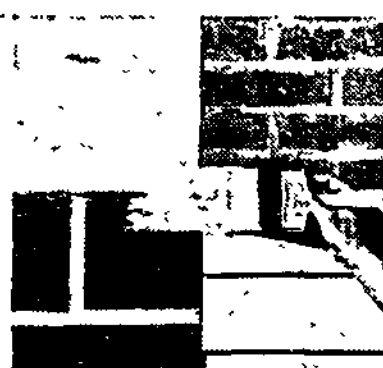

After 25 years' experience in acrylic chemistry... after developing LUCITE® Wall Paint that offers beauty without bother inside your home... Du Pont now brings the spectacular benefits of LUCITE to the outside.

Now you can have incredible durability without the temporary surface shine of

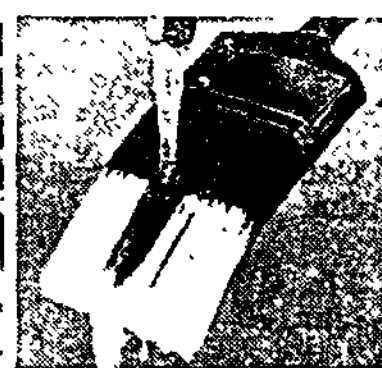

oil-base paints. The beautiful low-lustre surface of LUCITE House Paint forms a tough, durable shield that is just naturally more resistant to cracking, chalking, dirt, and fading than oil-base paint. And when you see how easy it is to use, you'll never go back to "hard work" paint.

Flows on easily, effortlessly. New LUCITE House Paint is so easy to use, it just flows from your brush with no tiring brush drag. And it dries so fast you can apply second coat, if desired, after only one hour.

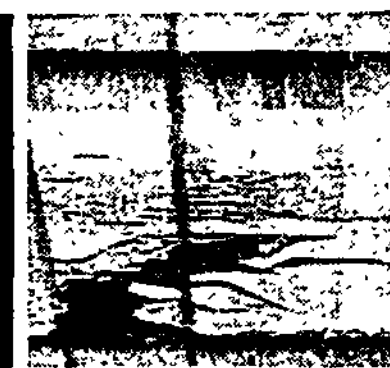

Covers almost any building material. Use LUCITE on wood, brick, masonry, stucco, cement block. Needs no primer, if old paint is in good shape. Goes on over damp surfaces, too. No delay from dew or showers.

Quick and easy cleanup. Clean brushes, rollers with soap and water. LUCITE can be thinned with water, too. No mess or bother with special solvents. Fresh paint spots wipe up with a damp sponge.

Protects like a plastic shield. The beauty of LUCITE lasts for years. Durable low-sheen finish acts like a tough, protective shield against extremes of weather. Dirt won't stick to smooth, hard LUCITE surface.

For special blistering problems that oil-base paint can't solve, try Du Pont LUCITE. For badly blistered portion of your home, remove old paint down to bare wood, apply Du Pont 49 Primer, then new LUCITE.

Check here for LUCITE dealer nearest you, or call 393-4220 in Omaha

at SAFEWAY

1. The brands you know so well are ready in a wide selection of sizes on Safeway shelves . . . at low prices . . . throughout the store.

2. Choice fruits and vegetables are chosen by Safeway's own buyers from rich growing areas and rushed to Safeway stores at peak freshness.

3. Safeway meats are top government grades, guaranteed tender and flavorful. Cuts are trimmed of excess waste and fat before weighing to give you more value.

4. Finest foods plus low prices . . . Smart homemakers shop for both and Safeway has long been famous for quality foods at low prices. Prove to yourself you'll eat better for less money when you shop Safeway!
